DEDICATION

With great pleasure I dedicate this report to my parents i.e. Jamthocelsi and Wathembo rose and all the relatives for their financial and maternal support offered to me during the course of my industrial training.

I also dedicate this report to SAS Nebbi sub county local government who accepted my request to do my industrial training with Nebbisub county local government . Without forgetting the staff members who acted as my field supervisor and for their guidance and advice given to me at all time.

Finally my dedication goes to all lectures and my fellow students of Busitema university Arapai campus.

ACKNOWLEDGEMENT

With great gratitude, I extend my sincere thanks to my parent, Executive director Acres of hope Ugandanebbi Odongogeofrey, friends and relatives for their financial and maternal support which enable me to finish my internship successfully.

I continue to appreciate chief administrative officer nebbi district local government Okakageofrey who offered me a vacant to my industrial training with nebbi subcounty.

I again thank SAS Ogwang Thomas my field supervisor who gave us appropriate practice to technique and advisory service relevant to my course of study.

Finally I thank my friends including those from Busitema university Arapai campus and many others may the almighty God bless them all.

ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Nebbi sub county, Nebbi District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the CBFs and later I implemented the activities such as; castration of bulls for fattening and animal traction under NUSAF THREE Programme Training of farmers group on animal traction and bull fattening under NUSAF THREE Programme, Training of farmers on animal management, animal treatment, vaccination of dogs and cats in all the parishes. These activities have made me to gain a lot of skills and knowledge like; Deworming of goats and cattle, skills in Castration, skills in general management of animals, communication skills and confidence in training farmers on animal and crop management, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must improve for the training programs to solve problems of poor turn up during such activities, government should also increase the number of motorcycles to solve transport problems and more equipment and veterinary drugs to be installed so that animals are treated and vaccinated in time.

1.0 CHAPTER ONE.

1.1 Introduction.

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at Nebbi sub county, Nebbi District Local Government during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

- ❖ Make students benefit from the skills from the fields
- ❖ Make students apply classroom knowledge in the field.
- ❖ Build confident in the students

1.3 Background of NebbiSub County

1.3.1 Location and area

Nebbi Sub County Local Government is located in the heart of Nebbi District with a total land area of 1,373 sq. km. It is bordered by Arua District in the north, Kucwiny Sub county in the East and South, Erusi Sub county in the west, Atyak Sub County in the Northwest and Democratic Republic of Congo in the west. It surrounded Nebbi Municipal Council in the middle and has four parishes which are; Koch, Kalowang, Pawong, Jupangira with 36 villages. The Sub county headquarters is located in Ocego central village, Thatha division, Nebbi municipal along NebbiPakwach road and it is about 3km from the district headquarters.

1.3.2 Political and administrative infrastructure

The Sub County is under the political leadership of the Le3 who heads the governing council and the Executives. The Council is the sole decision making body for the Sub county and its decisions are implemented by the Technical Planning Committee staff from various disciplines headed by the Sub County Chief. There are 2 Sectorial committees of the Sub county council each headed by a secretary (executive) namely; Production, Works and Technical Services Committee and Finance, Planning, Administration and Community Services Committee
