FACULTY OF AGRICULTURE AND ANIMAL SCIENCES

**INDUSTRIAL TRAINING REPORT CARRIED OUT IN KABEI SUB-COUNTY
BUKWO DISTRICT LOCAL GOVERNMENT.**

20ST MAY TO 26TH JULY 2019.

NAME: MAYEK DAN

REG NO; BU/UP/2018/2837

COURSE CODE; AGB 1209

EMAIL; mayekdan@gmail.com

BACHELOR OF AGRIBUSSINESS MANAGMENT

**SUBMITTED TO THE DEPARTMENT OF AGRIBUSINESS AND EXTENSION
FACULTY OF AGRICULTURE AND ANIMAL SCIENCES IN PARTIAL
FULFILLMENT OF THE REQUIREMENTS FOR THE AWARD OF BACHALOR OF
AGRIBUSINESS**

JULY 2019

DECLARATION

I **MAYEK DAN** declare that this is my true original copy of work done in the industrial training and it has never been submitted by any institution of higher learning for the award of marks.

Signature.....

Date: 26th/07/2019.....

APPROVAL

This report has been supervised and is submitted for examination with the approval of the,
Academic supervisor

Name.....

Signature.....

Date.....

Field supervisor

Name SANDE DISMAJ.....

Signature *S*.....

Date 26th/07/2019.....

DEDICATION

I dedicate this report to my beloved parents Mr. Munerya martin and chekwoti Lenny muneria my beloved sister Cherop Dorine and the entire staff of bukwo local government plus the department of agribusiness in Busitema university Arapai campus

ACKNOWLEDGEMENT

My kind appreciation goes to the almighty God who enabled me to go through the training and completed successfully and also I want to appreciate my parents and the field supervisor Mr. **TURUMA RHONE** for the support and kind he showed me during the training. My appreciation also goes to my friends who surely guided me during my internship.

MAY THE ALIMIGHTY GOD BLESS YOU ALL

ABSTRACT

The industrial training report is a combination of all the activities undertaken during the industrial training period in Kabei s/c Bukwo district local Government. Bukwo district is one of the districts in eastern Uganda; it's bordered by Kenya to the east, Mount Elgon Nation Park to the south, Amudat district to the north and Kween district to the west. The most predominant tribe is the sabinys who do practice livestock rearing and cultivating of crops. During my IT was attached to the production sector under the supervision of DPO and under him was the extension workers and I was introduced to many activities among which were sensitization of farmers about coffee, bananas, potatoes and distribution of those technologies to the farmers in the sub-county. Monitoring of the distributed technologies which were distributed to the farmers which I gained more of the skills among of which were pest and disease diagnosis, identification of some of the pesticides to be applied to the plants affected, some of the problems faced by the farmers during post harvesting and farmer trainings and evaluation of the distributed technologies. Thus the IT has made me to relate class work to practical field. . However there were some challenges, the area was hilly which made movement hard, some farmers wanted facilitation before attending trainings, some farmers were so conservative and also the transport system was so poor. Recommendations' local council ones should sensitize their people on importance of production trainings, construction of durable working roads to ease access to hard to reach area to ensure uniform technology adoption in the s/c

CHAPTER ONE; INTRODUCTION

The field training was carried out in bukwo district local government, kabei sub-county, under the production department came to and ends successfully. Bukwo district is in the far east of Ugandan bordered by Kenya in the east, kween district in the west, Amudat to the north and Mount Elgon national game park to the south. It is inhabited by sabinys whose main economic activity is growing of crops and rearing of animals.

The sector offers service like agribusiness i.e. how to use the little resources to fetch higher profits. They also distributed quality inputs to the farmer like fertilizers, insecticides and quality breeds of cattle.

HISTORY OF KABEI SUB-COUNTY

Kabei sub-county is one of the twelve sub-counties of bukwo district; it was founded in 2006 when bukwo was made a district of its own. It's located in the slopes of Mount Elgon along kapchorwa to suam road and it borders riwo Sub County in the north, Kortek Sub County in the east and Mount Elgon national park in the south and Kamet Sub County in the west. The sub county is endowed with fertile volcanic soils which have favored the growing of crops and rearing of livestock they practice Montana type of agriculture involving intercropping of maize, beans, bananas, coffee, passion fruits and livestock rearing.

Kabei sub-county is blessed with five parishes namely;

- Kabei
- Kapsenaton
- Mutushet
- Kapterit
- Lwongon
- And all the above parishes have 49 villages

3 Vision

A population with increased Households income living in a clean and healthy environment, yet enjoying good governance and security.

1.4 Mission

To improve on service delivery and reduce poverty among by promoting the population by promoting income generating activities to secure community.
