## **ACKNOWLEDGEMENT**

I would like to give thanks to the almighty father for the health, love and his protection that he has given me during the period of my training in Adraa Agriculture College.

Sincere gratitude further goes to the administrators of Adraa Agriculture College for considering my letter of request.

Wonderful appreciation goes to father Citia Michael for his struggle towards my success in Adraa Agriculture College

Last but not least to my beloved parents Mr. Luciano and Esther and also to my beloved brother and sisters for their material support and financial support that they have given me in the process of my study.

Lastly to my field supervisor Mr. Anichan Franco and the potential facilitator of all the sections that I have been in and finally to my brother Kilama Bosco and not forgetting my fellow intern students

## **DEDICATIONS**

First and fore most I would like to dedicate this to the almighty farther for his love, wisdom, protection and finally the knowledge and healthy mind during the two month period of my industrial training.

Because of their word and support has made me who I am I would like to dedicate this to my parents for their word of encouragement and in both financial and material support in the due cost of my studies and also during the field attachment.

Further to my brothers and sisters, uncle, to my field supervisor Mr. Anichan Franco, Mum Jerome and finally to one and only friend Kilama Bosco.

## **ABSTRACT**

Adraa Agriculture College is an organization which was started in the year 2012 By Franciscan brothers. My field attachment was carried out in Adraa agricultural college for the period of two month from 28<sup>th</sup> february 2022 to 6<sup>th</sup> may 2022.

The college has a section of outreach development program which function within Ofaka Subcouty and I was also engaged in the program teaching the community.

Adraa Agriculture College also has a department of education and training which offers the service of teaching short courses students and further have the section like demo plot, vegetables, field crops, livestock, bee keeping and finally administration.

In general the college has seven functioning section. During the period of my field attachment activities such as, artificial insemination, feed formulation, castration, ear tagging, tail docking, feeding animal deworming, etc was done in the section of livestock.

Meanwhile in bee development center I was able to practically do wax making, propolis, packaging, sealing, grading honey, hive inspection, making of hives etc

## **CHAPTER ONE**

### **1.0 introduction**

Chapter one consists of the organization name ,geographical location, how the organization positions itself in the industries, size(number of employees), It also gives information on the department the intern worked and elaborates the individual roles the intern did and the types and levels of skills that were required for the given skill, when the task was done, for whom and finally the organization structure.

### **1.1 The background of the college.**

Adraa agriculture college AAC was found in 2012. The purpose of the college is to educate and train people from rural communities in Uganda, South Sudan, and north east democratic republic of Congo. The main aim of this education and training is to improve capacities and capabilities so that rural people could have access to available natural resources to achieve sustainable livelihood for themselves and communities.

The college is registered as an agriculture training institution by the ministry of education and sports, Registration Number: MOES/BTVET/219. The official name of the institute is Franciscan Brothers Adraa Agriculture College (AAC). This registration will give it an official status as training institution of the corporate entity above and all legal obligations will still be vested with the trustees.

Currently AAC legal identity is the registered trustees of the Franciscan brothers (Br) (Africa region) Nebbi Uganda this entity is registered as a cooperate body under the trustees' incorporation act of Uganda by the ministry of lands, water and environment. All legal obligations are therefore currently vested in the trustees.

### **1.2 VISION**

Vision of the college is a society where the marginalized are prioritized and the earth is cared for.

### **1.3 MISSION**

Mission of AAC is to empower the marginalized in their struggles to liberate themselves and to care for the earth.
