ACKNOWLEDGEMENT

I take this opportunity to say thanks to GOD and greatly acknowledging His guidance through this tough times and good times of study, learning and interaction. This time I also say thank you to Busitema University for establishing this formidable curriculum with this good educative program to me as a student in the field of science. This is a proper educative process that has left me full of knowledge.

And greatly take my thanks to the HRM SOCADIDO, my friends and the entire team of SOCADIDO for the encouragement, advice and of all the guidance through this process of active participation and a wait in anticipation to working with you and to my parents thank you for your financial and spiritual support that keeps me going.

May God bless you abundantly

ABSTRACT

An industrial training report carried out by APEET GODLIVER a student pursuing a diploma in crop production and management at BUAC from 28th Feb to 6th May 2022.

Its main objective was to apply class room theory knowledge in the classroom to practicals and gain more knowledge and skills that helps a student in the future career.

i carried out my industrial training at SOCADIDO which is a Christian based organization established in 1981 overseen by well constituted board of governance, secretariat and community based structures across teso sub region. SOCADIDO's vision is to realize a prosperous, self reliant and peaceful teso community with a mission to contribute to improving sustainable socio-economic wellbeing of vulnerable groups. it implements its programs through an integrated and collaborative approach using community based structures eg VSLA. it intervenes in a wide range of socio and economic development like BINS, AGRID, DRR and climate change.

while at SOCADIDO we had our first meeting with the HRM who oriented us, introduced rules and regulations governing the organization and activities, projects run by the organization.

on our second meeting the HRM introduced and assigned some of the staff to guide and work with us through the whole process of IT. during my IT i carried out the following activities; managing the banana plants, establishing and maintaining nursery beds, participated in monthly meetings, carried out charity work interacted with different farmers through field work etc. i gained a lot of skills like communication with the farmers, farmer approach, making of reports, minutes and other more that has left me expertise for my career. however there was fluctuating weather like prolonged sunshine after small rain that hindered timely implementation of some activities.

despite the fact of all i conclude by saying my training was successful and i recommend the organization to purchase the irrigation system to avoid depending on rain fed agriculture. and also continue with the spirit of love.

03/5

CHAPTER ONE:

1.0 INTRODUCTION

This report contains a description of various activities implemented at the due course of my internship period the skills , knowledge ,and challenges I encountered during my industrial training.

1.1 Background of SOCADIDO

Soroti Catholic Diocese Integrated Development Organization (SOCADIDO) is a sister organization of the Uganda Association of Caritas Uganda, member of caritas Internationalis herein referred to as “Caritas-Soroti”. It is a Christian based organization established in 1981 and duly registered as a National NGO under the corporate trustees Act, CAP.165 of the Registered Trustees of Soroti Catholic Diocese (T.37940). It is overseen by a well-constituted board of governance, secretariat and community based structures across Teso Sub-Region. As one of the 19 Caritas Diocese in Uganda, It is the development arm of Soroti Diocese and seeks to contribute to Uganda National Development Plan efforts through Diocesan development projects. SOCADIDO’s Vision is to realize a prosperous, self-reliant and peaceful Teso community – with a specific mission to contribute to improving sustainable socio-economic wellbeing of vulnerable groups. The organization is member of Eastern Arch Diocesan Development Network (EADEN) and NGO network in Eastern Uganda covering the current 10 districts and one city of Teso sub region also known as East Kyoga, namely; Amuria, Bukedea, Kaberamaido, Katakwi, Kumi, Kalaki, Kapelebyong, Soroti, Ngora, Serere and Soroti City.

SOCADIDO’s strategy to realising its Vision is rights and need based. It implements its program through an integrated and collaborative approach using community-based structures. Among these include farmer groups which always doubles as the VSLA groups comprising of household representatives (household heads and their spouses) and youth groups. Similar to this is a marketing associations, Model farmers, Seed Banking Committees (SBC), , Community Activists, Community Based Monitors (CBM), Water User Committees (WUC), Community Peace Promoters, Human rights promoters, Early Warning Monitors (EWMs), Disaster Risk Reduction Committees (DRRC). Further to these, include District Disaster Management Committee (DDMC), Parish Environmental Committees, Clan Leaders, Religious Leaders, Local Artisans,
