ACKNOWLEDGEMENT

I wish to sincerely thank the almighty God who gave me the chance to study up to the level I have so far reached, because he has been besides me in good and tough moments.

I would also like to thank everyone who assisted me financially, spiritually, materially, morally and in any other way which enabled me to do this piece of work.

Special thanks to my mother Mrs. Mary Aleper , Uncle Ambrose Lotukei , Lepera David and family , Lemukol Lilly and family, Ayoo Edith and family and all my relatives and friends for their tremendous support.

I would also like to appreciate the agency staff of FAL&IGA Department; Mrs. Rose Lokiru, the Agency coordinator, Mr. Lokol Joseph, my field supervisor Mrs. Alaso Catherine, Mr. Loware Joseph Mukasa, Mr. Ngorok Isaac Jacques, Mr. Lotyang Ignatius, Mrs. Adong Deborah, Mr. Ogwang Paul and Mr. Okwii Brian not forgetting all the Animators and Zonal Supervisors.

Finally my appreciation also goes to Mr. Joseph Egabu University supervisor for his guidance, supervision and critical support during my internship.

May the almighty god bless you all

ABSTRACT

This field attachment work was carried out in FAL&IGA department of Caritas Kotido Field office from 1th June- 10th August 2018 as partial fulfillment for the award of the Diploma in General Agriculture of Busitema University. The intern participated in an overall programme planning and execution continuum involving in among other activities; establishment of office demonstration gardens, home visitation, various aspects of field demonstrations and trainings, joint project monitoring, environmental conservations activities, data entry and report writing.

The field attachment enhanced the learner's skills and competencies in field in the various are more so in monitoring, supervision and community communication, computer skills, socio economic areas planning and problem solving. The key challenges faced were related to poor roads as the internship period was ridden by heavy rains that could in some occasions even prohibit movement for days. It is concluded among others that the field attachment should continue to be part and parcel of the university programme.

It is recommended that the government should work on the bad roads to facilitate the movement even during harsh weather conditions

CHAPTER ONE

INTRODUCTION

1.0 Introduction;

Industrial training is university program in Busitema University which has to be assigned to every student in the second semester of the first academic year in the two-year course. It is intended to for students to undergo practical training in a development, or commercial organization or government institution to put class room knowledge into practice. The output of such an experience is meant to be a report on the various sections and activities carried out.

In the current field work, was done in agriculture, formal education, sanitation and hygiene and village loan associations conducted in Kotido Catholic Diocese (Social Services and Development). The work was particularly in the department of Functional Adult Literacy and Income Generating Activities (FAL&IGA) and the period of work was from the 1st June to 10th August 2018.

The report highlights what the student did during the internship and impact of field attachment, summary, conclusion and recommendations. The learner was directly under the supervision of I the Agricultural Trainer FAL&IGA Department.

1.1 Objectives of fieldwork;

The main objective of the fieldwork is hoped to help students relate academic programmes they study to actual work setting, and thus appreciate their applicability. Fieldwork has the following objectives;

The specific objectives are

1. To enable the internee, get hands on experience real life situation they are expected to work in when they graduate.
2. To provide an opportunity for the internee to apply the principles and techniques theoretically learnt into real life problem solving situations.
