## ABSTRACT

This report is a representation of the internship program which was carried out at Deezmia Agro imports and exports Ltd for the Fulfillment of the requirement for the Award of Diploma in Crop Production and Management at Busitema University. The internship basically covered a number of learning areas which included crop production, aquaculture, apiculture, piggery and horticulture among others. The field work involved a number of activities under the different units which included production of fingerlings, nursery bed and kitchen garden establishment under horticulture, diagnosing and treatment of pig diseases under piggery, good agronomic practices under crop production among others.

In summary, the internship was helpful in equipping me with hands on skills as I acquired practical that I acquired from the production of pigs, fingerling under aquaculture and horticulture under crop production.

The report also portrays Location Mission, Vision, objectives of the organization, Farm size and Products and services offered to their customers are job opportunity and training community members.

More the impact of the attachment and it consist of skills gained, responsibilities undertaken, and influence of the attachment to the future career plan and co-relation of industrial training activities with lecture room knowledge.

In a nut shell the report includes conclusions and recommendations including the major strength and weakness of the internship program and Deezmia community, recommendation both to the organization and the University for the Improvement of the internship program.

## **CHAPTER ONE**

### **1.0 INTRODUCTION**

Deezmia Farm is a private farm which was purchased and registered under private ownership since 2020 June but started its operations in June 2021. It is located in Amuru District, Acholi sub-region Northern Uganda, west of the main Gulu-Nimule road approximately 55 km and about 20-25 km from Amuru town council in Layima sub-county, Labongo parish.

Deezmia Farm is a Christian founded organization that was set to not only become commercially viable but also a sustainable farming enterprise focusing on crop production, aquaculture, apiculture and piggery and all these are done on averagely 100 acres of land. The farm is also engaged in extending knowledge as well as offering job opportunities to the community as portrayed in their vision and mission statements.

#### **1.1 Vision**

- To put in place sustainable and good agricultural and animal husbandry practices with the ultimate aim of becoming a commercially sustainable agricultural venture that not only provides high quality produce but is also a source of learning for the community at large.

#### **1.2 Mission**

- To encourage community involvement through good skillful agricultural practices

### **1.3 OBJECTIVES/AIMS OF THE ORGANISATION**

The following are the objectives of Deezmia Agro imports and exports Ltd.

- To improve the productivity of African catfish
