Date: --

Approval

This Project Report has been submitted for Examination with the approval of the following supervisor/s.

Signed : …………………………………………Date : ……………………………………..

MR. OBOTH ANDREW

Qualification

Department of Computer studies

Faculty of Science and Education

Dedication

This project work is dedicated to the ALMIGHTY GOD for making me being able to start up and successfully finish in sound health. Also to my parents as well for being supportive in the cause of this project work both financially and spiritually, to all believers for the moral and the spiritual support with the sincere prayers they made for me to attain this success and to my brother, sisters and close friends for being supportive and kind to me during the cause of this project work.

Acknowledgement

My sincere gratitude goes to THE ALMIGHTY GOD for his abundant mercies, guidance and protection over me throughout the course of my project work.

All thanks to my adorable parents Mr. MUHIIGI SILVER, Mrs. KATUTU KELLEN and Mr. MUKONYEZI CHRISTOPHER for their profound help and support during the course of this project work.

I really would say words are not enough to express my profound gratitude to my Supervisor Mr. OBOTH ANDREW who is also the lecturer in Department of Computer Studies, all other Lecturers in the Department of Computer Studies as well as the Non-Teaching Staffs of the Department of Computer Studies especially the Lab Technician for their support and inspiration in one way or the other. May God bless you abundantly (Amen).

Thanks to my brothers, sisters, family as a whole and all my friends for their unconditional love and care. All thanks to my sincere colleagues in the computer class 2016/2017 and the whole fraternity of Nagongera Campus for their immense contribution and unconditional support throughout the course of my project work. May God in his Devine favor bless you all (Amen).

ABSTRACT

Library search (internet) in which the researcher performed deep literature review for effective research, the output of library search generated requirements used in system design for instance system modeling using user-case etc. The second source of requirements came from field study as stated by ministry of education from the field study, requirements like admin user functionalities and user functionalities were determined. In that way all the requirements needed for system design were collected. The system should be deployed for use since 80% of the users agreed that the system performs its function.
