DEDICATION

I dedicate this report to the almighty God for the support and guidance he provided me during the conduction of the industrial training time. I also dedicate it to my academic supervisor Nabulime Loyo and my field supervisor Mr. masaba Fred, and to all the University lecturers for their advice, without forgetting the staff of Bukibino Sub-County and all the farmers who worked together with us. The same dedication goes to my parents Mr and Mrs Saul, Agatha Matselele and Mr Moses Wanzala for the financial support and to all my friends who were with me throughout the training by sporting and advising me for the good of my education.

ACKNOWLEDGEMENT

The great acknowledgement goes to the almighty God for granting me good health to complete my industrial training successfully. A great acknowledgement goes to my field supervisor Mr. Masaba Fred for mentoring and guiding me in all ways together with my academic supervisor Mrs. Nabulime Loye for her great supervision to me and not forgetting the entire University lecturers who actively trained me in class and in the farm during farm practice.

I also acknowledge my parents Mr. and Mrs Saul, Agatha Matselele and Mr Wanzala Moses, ~~relatives and all friends who supported me during the time of the industrial training.~~

ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Bukibino Sub-County, Bukibino Sub-County District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the CBFs and later I implemented the activities such as; castration of bulls for fattening. Training of farmers on animal management, animal treatment. These activities has made me to gain a lot of skills and knowledge like; Deworming of goats and cattle, skills in Castration, skills in general management of animals, communication skills and confidence in training farmers on animal, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training centers. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot of knowledge from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must improve for the training programs to solve problems of poor turn up during such activities, government should also increase the number of motorcycles to solve transport problems and more equipment and veterinary drugs to be installed so that animals are treated and vaccinated in time

03

CHAPTER ONE

1.1 Introduction

This report describes the implemented activities, skills and knowledge gained, challenges faced during the industrial training, conclusion and the recommendations got from the challenges faced at Bukibino Sub-County, Bududa district during the industrial training time.

1.2 Objectives of the industrial training.

The objectives of the industrial training are as follows,

- To build confidence in students
- To guide students apply classroom knowledge in the field
- To make students benefit from skills and experience gained from the field
- Background of Bukibino Sub-County

1.3 Beneficiaries of Bukibino Sub-County

The following are the Beneficiaries of Bukibino Sub-County, adult and youths groups, men and women groups, HIV/AIDS groups.

1.5 Vision

To transform and Empowered community from a Peasant to a Modern and Prosperous sub-county within 30 years.

1.6 Mission statement

To deliver equal services for men and women and other vulnerable groups for wealth creation and inclusive growth.

1.7 Natural endowment

1.7.1 Vegetation

The Vegetation cover consist of coffee, trees, pasture grasses for the animals and bananas

1.7.2 Climate

The area climate is characterized by mainly wet and dry spell, the dry season ranges from December to March followed by rain in April to August. The rainy spell that subsides in October and November creates a way for the dry season which experience cold dry windy weather concurrently
