ABSTRACT

Busitema University Arapai Campus (BUAC) is a public University located in Eastern Uganda 8 km from Soroti -Moroto road .The Faculty of Agriculture and Animal Science of the University designed this attachment with the aim of building capacity of the second year students pursuing certificate in general agriculture in practical skills related in the areas of specialization in various fields of agriculture in comparison with knowledge acquired from class room as well as serving a partial requirement for the award of certificate in general agriculture.

This industrial training report is a description and a compilation of the activities that were carried out during the industrial training from 20th May -26th July 2019 carried out with Community Empowerment For Rural Development (CEFORD) rhino camp refugee settlement area

Relevant activities were carried out during the training and these included monitoring and evaluating, data collection, cross cutting issues that affect farmers in the refugee settlement in agriculture as a business by developing business plans for farms, establishing of sesbania, planting of vegetables like egg plants, onions, okra cow peace and weekly planning meeting.

Conclusively, the industrial training commenced and ended successfully and I recommended the following to the livelihood department sensitization of farmers about climate change, encouraging farmers to carry out agriculture as a business among others

CHAPTER ONE:

1.0 INTRODUCTION.

Industrial Training is one of the requirements for the award of certificate in General Agriculture I the Faculty of Agriculture and Animal Science at Busitema University

The training was carried out at CEFORD Arua branch for a period of 10 weeks from 20th May to 26th July 2019. The training was under the supervision of the Programme Coordinator and Community Facilitator

The benefits of the industrial training to the students include:

- It gives a chance to the students to learn by doing in a setting where they are supervised by work place, professional and have the opportunities to achieve your own learning goals without the responsibilities of being permanent employee
- The Industrial training offers you an opportunity to work with someone who can become your mentor not only in the internship but throughout your career
- Learn about a career field from the inside and decide if this is the right career field for you.
- Work alongside professional chosen career area
- Learn skills and add to your knowledge base while gaining confidence in your abilities
- Opportunity to practice communication skills, team work ,meeting new people ,and practice networking skills while establishing network of professional contact, mentors and references
- Gain valuable experience and accomplishment to add to your resume and enhance your application to graduate at school.
- Create an advantage over other jobs or graduate school applicants.
