## ABSTRACT

Industrial I training was done at Kasajja Livestock Farm located in Nakaloke sub-county, Kolonyi Zone 1, Mbale district. The Farm deals in Livestock which include goats, cattle ,fish farming, bee keeping and crops like pastures, sunflower, maize beans and orchard.

The industrial training started on 28<sup>th</sup> feb 2022 and ended on 06<sup>th</sup> may 2022.

During the industrial training, we participated in different activities in the entire Livestock and crop section which included activities in goats and cattle like endo-parasite control for example deworming, health inspection, dipping, treatment, castration, and cleaning of structures. We also carried activities in orchard management like pruning, spot wedding, spraying. The industrial training was very important as we got equipped with practical ideas in Livestock, diary management and crop we also encountered some challenges like a challenge of poor roads leading to farm gardens.

However, despite of the challenges faced the internship was completed successfully.

Under my recommendation, the intern recommends the management of the farm to upgrade roads in order to resolve the above problems.

6/10

## CHAPTER ONE:

### 1.0 INTRODUCTION

---

The industrial training was carried out at Kasajja stock farm from 28<sup>TH</sup> Feb. 2022 to 06<sup>th</sup> May 2022 where by the number of activities were carried out at the farm and which includes the following orientation, making work plan, cleaning milking parlor, dipping animals, pasture establishment, parasite control, fodder harvesting and feeding animals, calf management, castration, dehorning, fishing sampling, goat management, drug identification, pasture identification, hay making and apiculture. Internship is a course unit run by the universities for most of the programs .this is intended to equip students with field skills.

### 1.1 LOCATION OF THE FARM

---

Kasajja stock farm is located in Nakaloke sub county, kolonyi zone 1 in Mbale district. It is 8km north of Mbale town boarding 2 districts of Butebo in western direction and Bukedea in north direction

### 1.2 Mission of the farm

---

To produce high quality milk

### 1.3 VISSION OF THE FARM

---

A world in which people are empowered to succeed in the global economy

### 1.4 OBJECTIVES OF THE FARM

---

- To produce high quality milk for home consumption and commercial purposes.
- To create employment to local people around.
- To become a mode farm in Uganda.

### 1.5 BACKGROUND

---

Kasajja stock farm was established early 1970 with poultry farming and local zebu animals occurring 50 acres of land.

Then in 1982 five (5) exotic breed of animal (freshen) and one (1) bull was introduced from Kenya. Now the farm has 149cattle
