DEDICATION

I dedicate this report to my family members and friends, my parents in particular for the support they gave me during the time of my IT, not forgetting my brothers and sisters for the comfort and encouraging words. Second the management of AMELIA AGRO AFRICA LIMITED who allowed the intern to conduct the IT AT THE FARM, DIRECTOR ENG.JAN WLILEM, and then the field's operation manager. Lastly to my friends from Busitema Arapai campus whom student cooperated within the field to gain knowledge and skills.

ACKNOWLEDGEMENT

With great pleasure and appreciation, I would like to extend my sincere thanks to my beloved parents, family members my dear grandfather AFANDE MBADI and my uncle MR.KIIZA SIMPLISIO for the financial support, , prayers for my success and the guidance they gave me during the IT period may GOD's goodness run after them and bless the work of their hands.

My special thanks goes to the management and the staff of the farm for offering a vacancy for my IT. It was really a great time with you that the intern got chance to interact with distinguished categories of people. Lastly I would like to thank my head of department MR.KABIRI RONALD and field supervisors for the guidance during the IT.

ABSTRACT

The IT was carried out at AMELIA AGRO AFRICA LTD in Naminya sub county, Buikwe district for eight weeks that's from 28thFEBRUARY -22nd APRIL 2022 mainly on crop and animal al production.

Objectives of the IT was to enable students to acquire skills in relation to the theory learnt in class about management of crops, animals and other agribusiness activities, to enable students interact with people of different categories like managers, supervisors, farmers and other workers.

The IT activities were; making poultry production records, fermenting of feeds for animals and birds, cleaning around the different units of livestock and black soldier fly inclusive, sourcing and providing feeds to animals and birds, harvesting and value addition on the fruits, vegetables, seedbed preparation, deworming of birds, cleaning of feeding troughs and drinkers, transplanting, preparation of planting trays, management of BSF, LAYING OF COMPOST MATERIALS, Temperature measurement in compost and many others.

While at the farm challenges were encountered some of them are difficult in communication with some farm workers which made explanation in other projects less understood, insufficient income to facilitate the students stay, weather changes.

CHAPTER ONE.

INTRODUCTION.

This chapter introduces the student to the background of IT, the objectives, main purposes, vision, mission, location, and the of the host institution.

Back ground

Industrial training refers to the program offered by higher institutions of learning such as universities, colleges that offer good practical training to students with various courses in a specified time frame.

It's offered by both government and private companies such as NGOs.

The management board of BUSITEMA UNIVERSITY always allows students to chose thir own places which are convenient to them and the IT placement letters are delivered to the chosen institution by the student, later forward the acceptance letter to prove that has been offered a vacancy to the management.

Objectives of the IT

- To develop the skills in application of theory to potential work situation.
- To develop skills and techniques directly applicable to their career
- To build strength, team work spirit and self-confidence in the student life.
- Expose and enable students apply the research concepts theoretically like interviewing, observation and taking daily records.

Purpose of the IT

- It helps to expose students to real work of environment experience at the same time.
- Enables the student gain knowledge through hands on, observation and execution.
- Enables students develop skills in work ethics communication and management.
- Ability to relate the theoretical knowledge with its application in the field of work.
