ABSTRACT

Industrial training is one of the course units carried out at Busitema university and it's done outside lecture room, it involves interactions between field supervisor, farmers or local communities, extension workers, and intern students. I did my industrial training for about 10weeks, from Monday 28th February to Friday 6th may/2022 (two months and two weeks) and was divided into 2 sections

In the field, we attended quiet a number of trainings with Uganda Youth Engine beneficiaries which is the project I was attached to, I also attended many inception meetings at Patongo Counselling Community Outreach, Patongo Town Council at different hotels such as White house Hotel and Wetland Hotel and some meetings were done from Agago district headquarters, we did field sport check-up as well for the success stories for the beneficiaries for Uganda Youth Engine in this activity we moved to the different beneficiary's gardens to cross check whether they followed the good agronomies they were trained on like planting crops in lines, intercropping the soybeans with cassava, and others. And the verifications for the number of beneficiaries who got the seeds seals as instructed by their agents

In the office, we attended various Monday meetings which always take place every Monday majorly for departmental updates where travel plans are aired out by the various department for the head of office and logistic to take notes off and covid-19 updates are also passed out in this meeting, we attended many trainings such as Gender and Social Inclusion (GESI), Akorion/Ezyagric training on how to install comm care apps in smart phones, and training on programmes systems and on personal security when travelling or at the offices, we did data entry for all the UYE beneficiaries names for all the benefiting sub-counties of Geregere, Adilang, Wol, and Kotomor, we assisted the Maternal New borne Child Health-Nutrition (MNCHN) under the project Act Health team in data entry for community conversations, we also attended safeguarding trainings with our field supervisors and head of human resource from the main office Kampala.

CHAPTER ONE; INTRODUCTION

Introduction

I did my internship from Goal Uganda Agago field office, starting from 28th February to the 6th of May 2022, this covered 10 weeks of the industrial training. Goal is a non-governmental organisation and its an Irish international humanitarian organisation founded in 1977 and currently operational in in 13 countries in both protracted crisis and long-term development context

Location

Goal Uganda Agago field office is in Agago district, Kalongo Town Council, Akado village, Northern Uganda

Historical background

1.2.0 Goal was established in 1977 by Dublin sports journalist John O'Shea and four friends. Deeply moved by the plight of street children they encountered on a trip to Kolkata (Calcutta),

India, they decided to set up an aid organisation dedicated to helping the world's poorest and most vulnerable people.

1.2.1 Goal is an Irish international humanitarian organisation founded in 1977 and currently operational in 13 countries, in both protracted crisis and long-term development context. Goal works so that people survive crisis, have resilience health and food security and nutrition and sustainable livelihoods. Goal work with the permanent players like the government, civil society organisations and the private sector to protect and stimulate socio-economic development

1.2.2 Goal Uganda's current programming

Operational in Uganda since 1979, Goal currently has head office in Kampala, 5 field offices and a team of approximately 100 personnel. Goal implements programmes that build community resilience and support socio economic development with focus on water, sanitation, and hygiene, health system strengthening and agricultural, market system, Goal's work is supported by several donors which include Mastercard foundation, Charity, Irish Aid, USAID, and Eleanor crook foundation
