**A REPORT ON INDUSTRIAL TRAINING CARRIED OUT AT VETERINAIRES
SANS FRONTIERES BELGIUM(VSF-B) IN MOROTO DISTRICT**

BY

ALEPER BRENDA KIYONGA

REG NO: BU/UP/2020/1517

BACHELORS IN ANIMAL PRODUCTION AND MANAGEMENT

COURSE CODE: APM 1301

EMAIL: aleperbrendakiyonga@gmail.com

**REPORT SUBMITTED TO THE DEPARTMENT OF AGRIBUSINESS AND
EXTENSION FOR PARTIAL FULFILLMENT FOR THE AWARD OF THE
DEGREE OF BACHELORS IN ANIMAL PRODUCTION AND MANAGEMENT
OF BUSITEMA UNIVERSITY ARAPAI CAMPUS**

APRIL 2022

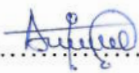

SUBMISSION DATE.....18th / May / 2022.....

Declaration

I **Aleper Brenda Kiyonga** do declare that this field work report was prepared and written by me, it is entirely out of my effort and the help of my field supervisor. There is no falsified information from any other source and it is ready for submission to the faculty of agriculture and animal sciences Busitema university Arapai campus.

Dedication

I dedicate all the work of my hands to my beloved father Mr. Lokoru Albert Kiyonga my mother Mrs. Ngorok Lucy and my friends especially Mr. Adoko Jacob for the wonderful support they gave me either spiritually or financially towards my education and not forgetting my supervisor Mr. Moru Charles Dimo, and the entire staff of VSF-BELGIUM especially Dr Emaruk Emmanuel the manager whose effort made my internship successful.

①

Acknowledgement

I thank the almighty God for the gift of life and for having enabled me sail through the entire internship period.

In a special way, I wish to extend my sincere gratitude to my father Mr. Lokoru Albert Kiyonga, whose effort made my industrial training and study possible. The warm welcome of the staff of VSF-BELGIUM and the good working conditions that made me carry out this internship successfully. More appreciation goes to the project managers for the moral support and to the staff whose team work led to the success of my internship. I also send my sincere appreciation to my supervisor Mr. Moru Charles Dimo for all the guidance. Thanks. and may God bless you all.

My heartfelt thanks go to my academic supervisor Mr. Ojuu David for his guidance towards the completion of my internship training.

And lastly my fellow intern with whom we participated in the internship training period.

Amen.

Abstract

The internship commenced on the 28th of march 2022 and was completed on the 22nd of April 2022 and It was conducted at VSF-B in Moroto district The purpose of this industrial training is to equip students with knowledge and skills, methodology of monitoring and evaluation in agriculture and other related activities in order to put class room knowledge into practice, to understand and to be exposed to practical experience through research, extension work with an organization or government institutions that has accepted the to carry out the training. Throughout the industrial training periods, the initial activities included orientation to VSF-B policies such as code of conduct, working hours, and drawing of workplan. among other activities carried out were, chemical control of parasites on livestock, training of livestock husbandry groups, vaccination of goats against CCPP, vet-outlet monitoring, refresher training of CAHWs, identification and prioritization of beneficiaries for the humanitarian project and verification of selected beneficiaries. The activities carried out were successfully

Experiences learnt included developing participatory work schedules, conducting practical activities during trainings, involvement of community CAHWs in treatment of livestock. The approach seems more sustainable, since the CAHWs work and live within the communities. The training revealed that some of the theory taught in class slightly differs from what is practically done in the field, e.g., very few welfare practices are applied in the field. The obvious ones that are observed include, providing shelter, food, treating animals, allowing animals to rest as well among others but when it comes to moving animals in races, welfare is not followed at all because animals are beaten badly.

However, there were also some challenges encountered which include, harsh weather, insecurity in the region, illiteracy of most CAHWs, poor animal structures in some communities such as cattle crushes, rampant cattle raids in the region and poor road and communication networks. Some of the recommendations for the organization are introducing FAL classes for CAHWs to learn some basics in reading writing and numeracy, construction of cattle crushes in areas without and increasing the number of cattle crushes in areas with high livestock numbers, refresher training for CAHWs to be conducted, if possible, on yearly basis so that their knowledge retention gap is minimized.

CHAPTER ONE

1.1 Introduction

A field attachment is one of the requirements of Busitema University and other numerous universities and colleges of higher education before they go and practice the professions in the field. Busitema university allocates students to various organizations both government and non-governmental organizations to attain practical skills and knowledge of their professional interest in relation to classroom lectures and therefore the report is presented to the university for partial fulfillment for the award of certificate, diploma, or degree in various courses.

This attachment was carried out in Moroto district attached to vétérinaires sans frontières.

1.2 Background of vétérinaires sans frontières

Veterinaries Sans Frontiers (VSF-B) is a nonprofit Belgian NGO working with funds from the Belgian government and other donors, operating in eight countries across Africa whose mission is to empower disadvantaged livestock dependent communities in the south to improve their wellbeing. VSF-B has been working in Karamoja sub region since 2007 with over a decade of interventions. VSF-B has established solid partnerships with local NGOs. VSF-B is working with two main partners i.e., Matheniko Development Forum (MADEFO) in Moroto district and Dodoth Agro -pastoralist Development Organization (DADO) based IN Kaabong district.

Other partners are: The decentralized offices of the Ministry of Agriculture, Animal Industries and Fisheries (MAAIF), Ministry of water and environment and the Districts Community Development Services, Microfinance Support Centre.
