ABSTRACT

The internship training was conducted at St Paul's college Mbale mixedfarm in Mbale for a period of TEN weeks from 28th february, 2022 to 06th may, 2022. The purpose of this training was to equip students with practical skills that are relevant to their respective courses especially in animal production and management. During the ten weeks period many activities were under taken and these included castration, dehorning, deworming, spraying, pasture conservation, pasture establishment, farm structures construction, feed mixing, disease diagnosis and treatment. Many challenges were encountered during the internship period such as bad weather condition, language barrier, failure to issue work plan in time, tiresome work done and transport costs to the farm. However, it was concluded that the industrial training was successfully carried out however some challenges where encountered such as bad weather, failure to issue the work plan in time, language barrier and inadequate labour. In recommendation therefore the organization should recruit other workers because work was tiresome due to inadequate labour personnel.

CHAPTER ONE

INTRODUCTION.

1.1 Background of the farm.

St Paul's college Mbale mixed farm was founded in the year 1950 by R.V father Von-da Salm from Holland under the archdiocese of Tororo in rabale as an agricultural and livestock farm of St Paul's college Mbale Uganda.

It served as a demonstration farm for agriculture and animal husbandry where it has seen as heading farm in milk, pork and egg production.

The term was cultural to locate population of breeding and was seen as a service of all agriculture needs until 1972.

It's currently integrating the young people in surrounding area to take interest in farming as a production occupation.

1.2 Location of the farm

It's located in Mbale college cell, Namakwekwe ward, and northern division in Mbale city along Mbale- Soroti road 2 km from Mbale town.

1.3 Objective of the farm

To create an atmosphere to the visitors to come and join the national beauty of Mbale and have a real farm experience.

1.4 Mission

To provide agricultural produce like pork, milk and eggs to the local people

To impact the local people in agriculture.

1.5 Vision

Enable students acquire practical knowledge from the theoretical knowledge got from class.

Also enable students get experience and expose them to the problems of the working environment.

To enable students acquire better working habits.
