(Academic supervisor)

DEDICATION

I dedicate this report first of to my lovely mother who has seen me through out, secondly to my lecturers at Busitema university who have done a good work of lecturing and mentoring me , thirdly to Iganga municipal council for having offered me a place of my internship , my supervisors for mentoring and monitoring my performances . Lastly to my fellow students for all the support.

ACKNOWLEDGEMENT

This acknowledgement goes first to my Almighty God who has fought for me all the battles that would have led to my quitting of this course for all an avoidable challenges that I have faced

Also to my field and academic supervisors for having taken passion and commitment to train me all round, taking care of all of us with kind, my fellow intern students for the collective efforts you exhibited during the internship period as we shared knowledge and challenges. Not forgetting my hard working parents, lecturers for mentoring me to become a person of purpose and lastly to Iganga municipal council.

ABSTRACT

This report contains and describes the activities carried out, skills attained, trainings from the field outreaches and challenges faced during my internship. Also conclusions and recommendations of the report that I derived from the challenges I faced in Iganga municipal council local government. The main objective of my industrial training is to complement on the classroom knowledge to make it complete by carrying out those principles practically, build confidence in handling and dealing with farmers for extension of production services. During internship I was attached to the department of production, this was followed by orientation where I was introduced to my field supervisor, staff of abattoir and my fellow internees and later implemented the activities such as vaccination of birds, meat inspection, cleaning and disinfecting animal houses, feeding of animals, spraying, treatment of animals of diseases like hypocalcemia, contagious bovine papilloma, ECF and others, deworming of goats and cattle. These activities made me to gain a lot of skills and knowledge like doing meat inspection, communication skills with farmers. However it shows some of the challenges I faced during my internship like financial challenges, correlation with harsh farmers and traders and fewer veterinarians. In conclusion all activities were implemented and industrial training was carried out successfully and was able to gain a lot from it with some recommendations that I put forward to assist the smooth running of I internship like close monitoring and assistance of the internees with back up and adding on the number of veterinarians to handle the big number of farmers

1.0 CHAPTER ONE: INTRODUCTION

1.1 Background of Iganga Municipal Council

I carried out my internship in Iganga municipal council that is in Iganga district which is part of Eastern Uganda.

Iganga district was part of Busoga at independence in 1962. In 1975 it gained district status and it became south Busoga district in Busoga province

It was named Iganga in 1980 and present day Bugiri, kamuli and Mayuge made up Busoga district.

1.2 Location

Iganga Municipality is a town in the Eastern Region of Uganda, it is the main municipal, administrative, and commercial center of Iganga District.

Iganga is located in Uganda's Busoga sub-region. It lies approximately 45 Kilometers (28 mi), by road, North East of the City of Jinja on the Highway between Jinja and Tororo. This is approximately 118 Kilometers (73 mi), by road, Southeast of Mbale. The coordinates Iganga Municipal Council are 36°54.0'N, 33°29'06.0'E (Latitude: 0.6150, Longitude: 33.4850)

1.3 Addresses

E-mail: info@igangamc.go.ug

Website: www.igangamc.go.ug

Tel: +256772467761

P.O Box 232, Iganga Uganda

1.3 Soils

Iganga district has varying types of soils differing from one place to another.

Iganga town has mainly loam and sandy soils. However lowlands are covered by black clay soils. The soil distribution patterns depend on the nature of the land scape.

1.4 Vegetation
