ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Kyere sub county, Serere District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the CBFs and **later I implemented the activities such as; castration of bulls for fattening and animal traction under NUSAF THREE Programme Training of farmers group on animal traction and bull fattening under NUSAF THREE Programme, Training of farmers on animal management, animal treatment, vaccination of cattle against foot and mouth disease in all the parishes.** These activities has made me to gain a lot of skills and knowledge like; Deworming of goats and cattle, skills in Castration, skills in general management of animals, communication skills and confidence in training farmers on animal and crop management, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must improve for the training programs to solve problems of poor turn up during such activities, government should also increase the number of motorcycles to solve transport problems and more equipment and veterinary drugs to be installed so that animals are treated and vaccinated in time.

1.0 CHAPTER ONE.

3

1.1 Introduction.

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at Kyere sub county, Serere District Local Government during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

- ❖ Make students benefit from the skills from the fields
- ❖ Make students apply classroom knowledge in the field.
- ❖ Build confidence in the students

1.3 Background of Kyere Sub County

1.3.1 Location and area

Kyere Sub County Local Government is located in the southern part of Serere District with a total land area of 2,373 sq. km. It is bordered by Ngora District in the south, Atiira Sub County in the Northeast, Kyere town council in the west, Ocapa town council in the Northwest and Soroti District in the East. The Sub and has Eight parishes which are; Kyere, Kamurojo, Abuket, Kakuja, Omagoro, Kelim, Olupe and Kangodo Parishes, 44 villages with the population of 47500 people according to the previous census. The Sub county headquarters is located in Olupe Parish, Otemmojong village, Kyere Sub County is located 15km away from the district headquarters.

1.3.2 Political and administrative infrastructure

The Sub County is under the political leadership of the Lc3 who heads the governing council and the Executives. The Council is the sole decision making body for the Sub county and its decisions are implemented by the Technical Planning Committee staff from various disciplines headed by the Sub County Chief. There are 2 Sectorial committees of the Sub county council each headed by a secretary (executive) namely; Production, Works and Technical Services Committee and Finance, Planning, Administration and Community Services Committee
