DEDICATION

I dedicate this piece of work to God, my beloved parent Mrs. Namusoke Beatrice, my beloved sister AGUTI VICKY who struggled hard for my university fees, my Lecturers ,not forgetting Mr. HUNUSS HAMIRA, my Friends who worked hand in hand with me, my beloved wife ATIM ANGELA Thanks for the financial support, advise, encouragement when I had no hope and prayers.

My God provide you with all the desires of your heart and bless u abundantly

ACKNOWLEDGEMENT

I acknowledge the financial support from my mother NAMUSOKE BEATRICE, my wife atim Angela and my sister Vicky Aguti, friends and my uncle OLUGA George, Egonyu Francis for the combined support during my internship

I also extend my special appreciation to the staff of SOROTI CITY PRODUCTION OFFICE for giving me a large platform to participate in many activities and truly thank God for keeping me alive till today

ABSTRACT

This report contains and describes the activities implemented, skills and more knowledge gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Soroti City. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students.

During internship I was attached to the department of production at the city under supervision of DR ISAIAH ODOKORACH. This was followed by orientation where internees were introduced to the office and later drew the program of internship activities such as; office work, meat inspection, field visit and teaching farmers, these activities have made me to gain skills and knowledge like; Meat inspection, how to teach farmers, how to package information and self-in front of the public, diseases got from meat, office work handles, animal transportation permits, Control of spread of disease to public from infected meat, how to condemn meat unfit for human consumption, incineration of condemned carcass, waste management, ante mortem inspection of animals, Post mortem inspection of carcass, time management, daily inspection report reporting, etc.

Despite all I also faced some challenges like: difficulty in meeting mobilizing workers, time issues. In conclusion all went on well despite some challenges met along the way but still struggles were put forward to see all is accomplished well to my level best

CHAPTER ONE. 1.0 CHAPTER ONE.

1.1 Introduction.

This report describes the activities carried out, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at soroti city eastern division and the slaughter house, in soroti City during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

Impart students with skills of work in the community

Help students to practice on the knowledge obtain in class hands on

Build confidence in students outside school to face the community service

1.3 BACK GROUND OF SOROTI CITY

Growth dates back to 1904 when district commissioner of Mbale sent kakungulu to open up some administration posts in serere Gweri, soroti areas part of the kakungulu team camped near the rock of soroti and settled there the choice of the camp site probably influenced by good drinking water from nearby streams and the fact that the rocks had some advantages

The local inhibitors were forced to clear the forest and with few years a large area had been cleared and considerable amount of settlement had taken place thatched houses for administrative purposes of soroti county ware put stands, the dispensaries at now soroti hospital

Later when the Asians came small shops for trade ware raised up in soroti and batter trade started

In 1912 soroti became permanent headquarters of Teso region as a result of the recommendation by sir Frederick Jackson who was pointed new governor of Uganda

Later the district commissioner was posted to soroti permanent buildings then started with the district office, when the first world war came in 1914 -1918 the development somewhat went down in 1919 it again picked up

SOROTI CITY attained its city status in 2020 and it was divided in to two divisions EASTERN AND WESTERN division with each division having its wards and cells respectively for easy delivery of service and leadership i.e., Pamba, OPUYO, Moruapesur, aloet, opiyai A, opiyai B,
