DEDICATION

I Awoko Noreen would like to dedicate this report to my parent Odongo Tom and Akullu Magret and my brothers and sisters for the support given to me during the training to ensure successful completion of this training and brighter future. I also dedicate to the lecturers forgiving us time to do the training especially those of Arapai campus in the department of Agribusiness and extension education such that we can gain more knowledge and skills of what is being learnt from class theoretically to convert them in to practical skills. To end the dedication, I would like to dedicate it to the administrators of Loro sub-county not forgetting with my friends with whom we did with the training.

①

ACKNOWLEDGEMENT

I would like to offer my special thanks to the administrator of BUAC for guiding me on how to write the report and supervision which was done by Miss Elelu Susan during the course of the training diploma in animal production and management and the lecturers of BUAC and the administrators of Loro sub-county. I would like to give special thanks to my parents, relatives, friends and the almighty father for the support given to me during the period of training as God was on my side and everything went on successfully.

ABSTRACT

The industrial training is one of the modules conducted in Busitema university Arapai campus for a period of two months and half after every first year. Experience of the working situations begin to build work related skills required for the environment through construction feedback and supervision etc. This report consists of four chapters and preliminary pages. Chapter one introduces you the reader to the full title of the sections and management styles of the sections.

The second section makes us to understand how the activities were handled during the practice.

The information on activities are represented on a tabular form and in words, chapter three shows the impacts, qualifications and skills attained during the course of the training. The fourth chapter Conclude and recommend on the activities.

5

CHAPTER ONE

1.1 Introduction

This section presents the objectives of field work attachment, the background, name, nature, Location, structure, mission and vision, ownership, management system, activities of the Organization.

1.2 Background of the organization.

Loro sub-county is found in Oyam district and it is situated on the main Lira to kampala road 320km from the district headquarter located in the southern part of the district. It is composed of 108 villages and 7parishes, the sub county is mainly dominated by Langi as a tribe who came

Here mainly for trade and business opportunities who most of the people estimates to 96 percent are subsistence farmers (peasant) who earn their living through crop production. There are few livestock particularly cattle are reared.

The strength of sub county is mainly based on agricultural production however, small scale trade also do contribute to some extent to the economy.

The weakness of the sub county includes inadequate and underutilization of available resources, Inadequate new technology and agricultural inputs among others.

1.3 Mission of the organization

To improve on the livelihood of the community / people for sustainable development through a Coordinated delivery of quality services which focus on local and national priorities.

1.4 Vision of the organization

A transformed, peaceful and prosperous community by 2040.
