DEDICATION

I dedicate this report work to my almighty God for the support he gave me during the time of conducting industrial training. Secondly, this piece of work gift of full experience, skills and knowledge to my dear parents, my brother and sisters for your love, care and support.

All my friends, relatives and lecturers who are unmentioned are appreciated for the company given to me.

ACKNOWLEDGEMENT

Firstly I would like to express my great appreciation to almighty God for the protection, guidance, career and good health during the field work

I would also like to express my great appreciation to my beloved family members for their continuous support and care.

Appreciation goes to the university administration and most especially to my field supervisor TAABU RICHARD for the guidance and support throughout the field work period.

Sincere thanks also goes to the staff of Masafu Sub-county for the support and guidance they offered during my field practice.

ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Masafu sub county, Busia District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the assistant veterinary officer and later I implemented the activities such as; castration of bulls for fattening and animal traction under NUSAF THREE Programme Training of farmers group on animal traction and bull fattening under NUSAF THREE Programme, Training of farmers on animal management, animal treatment, vaccination of dogs and cats in all the parishes. These activities has made me to gain a lot of skills and knowledge like; Deworming of goats and cattle, skills in Castration, skills in general management of animals, communication skills and confidence in training farmers on animal and crop management, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must improve for the training programs to solve problems of poor turn up during such activities, government should also increase the number of motorcycles to solve transport problems and more equipment and veterinary drugs to be installed so that animals are treated and vaccinated in time.

53

1.0 CHAPTER ONE.

1.1 Introduction.

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at Masafu sub county, Busia District Local Government during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

- ❖ Make students benefit from the skills from the fields
- ❖ Make students apply classroom knowledge in the field.
- ❖ Build confidence in the students

1.3 Background of Masafu Sub County

1.3.1 Location and area

Masafu Sub County Local Government lies in Busia District, on the Musita-Mayuge-Lumino-Majanji-Busia road, about 10 kilometers southwest of Busia with a total land area of 1,373 sq. km. It is bordered by Namayingo District in the west, Masinya Sub county in the East and South, Masaba Sub county in the west, Buyanga Sub County in the Northwest and It has four parishes which are; Kubo, Buhatuba, Mawanga, and masafu with 26 villages. The Sub county headquarters is located in Buwanda village, Masafu parish, Busia district along Majanji road and it is about 9.5km from the district headquarters.

1.3.2 Political and administrative infrastructure

The Sub County is under the political leadership of the Lc3 who heads the governing council and the Executives. The Council is the sole decision making body for the Sub county and its decisions are implemented by the Technical Planning Committee staff from various disciplines headed by the Sub County Chief. There are 2 Sectorial committees of the Sub county council each headed by a secretary (executive) namely; Production, Works and Technical Services Committee and Finance, Planning, Administration and Community Services Committee

1.4 Beneficiaries of Masafu sub county

The beneficiaries are the NUSAF, PWD, CBF, HIV/AIDS group, Adult and Youth groups.
