INDUSTRIAL TRAINING REPORT CARRIED OUT AT KASAJJA STOCK FARM
KOLONYI ZONE NAKALOKI SUBCOUNTY, MBALE DISTRICT.

FROM 28TH, FEBRUARY 2022 TO 6TH, MAY, 2022.

COMPLIED BY;

NAME; KAGOYA LYDIA

REG NO; BU/UP/2019/3296

TEL ;0780300844/0707197704

EMAIL ADDRESS: lydiakagoya10@gmail.com

PROGRAM OF STUDY; DIPLOMA IN ANIMAL PRODUCTION AND MANAGEMENT

COURSE CODE I301

SUBMITTED TO; DEPARTMENT OF EXTENSION AND AGRIBUSINESS

SUBMISSION DATE;

12th/05/2022

SIGNATURE;

TO BE SUBMITTED TO THE DEPARTMENT OF AGRIBUSINESS AND
EXTENSION FOR THE PARTIAL FULFILLMENT FOR AWARD OF A DIPLOMA IN
ANIMAL PRODUCTION AND MANAGEMENT

DECLARATION

I KAGOYA LYDIA Declares that this work has been complied by my efforts, my experience and is not duplicate of any work submitted to any institution of higher learning by anyother person or any organization for a ward of an academic qualification.

NAME

KAGOYA LYDIA

SIGNATURE;

APPROVAL.

This is to certify that this internship report has been submitted with approval and supervision of academic staff from Busitema university Arapai compus Faculty of Agriculture and Animal sciences for consideration by the Department of Extension and Agribusiness

UNIVERSITY SUPERVISOR

NAME: Michael Masanza

Date: 17/05/2022

FIELD SUPERVISOR (FARM MANAGER)

NAME: Dennis A. A. A.

Signature: [Signature]

Date: 17/5/2022

DEDICATION

I dedicate this piece of work to my beloved Parents who have put in more effort throughout the entire period of my industrial training .

Mr.samuel mwondha and Mrs Namagandha Mariam perusi and all my brothers and sisters,and friends i was with at kasajja stock farm . I also dedicate to the management of kasajja stock farm and Busitema university for your support that they rendered to me during this training.

ACKNOWLEDGEMENTS

With great pleasure I would like to acknowledge the help rendered to me by my beloved parents for they have been around with me throughout.

Special thanks to the management of kasajja stock farm for there service they offered to me .Not forgetting all the farm workers at large who guided me in different activities.

Im also grateful to Busitema university, faculty of Agriculture for giving us this opportunity to carry theory work into practice.

Finally I extend my sincere thanks to my friends, field supervisor; Mr. Ogwanga Alex, and Mr kissa Anthony for the guidance throughout the training.

ABSTRACT

The industrial training was carried out at Kasajja stock farm located in Nakaloke sub county Kolonyi zone one, Mbale district from 28th of February to 6th of March 2022. The farm deals in livestock rearing which include the following dairy cattle, aquaculture, apiculture and also deals in crops like banana production, orchard, rice production and pasture establishment.

This report was compiled during my industrial training that lasted for 10 weeks at kasajja stock farm. The major purpose of this training is to fulfill the requirements needed for a partial fulfillment in Diploma in animal production and Management and also to put theoretical knowledge got from class into practice and get exposed to the farmers. The farm activities were carried out from Monday to Thursday and outreaches to Farmers were carried out every Friday.

Chapter one covers the identification of industrial training clearly including the location, mission of the farm, objectives, Background, climate and vegetation of kasajja stock farm

Chapter two covers the description of attachment of several activities like deworming, spraying cattle, crop disease diagnosis, hay making, dipping of animals, apiculture, pasture establishment, serial crop establishment, pasture identification, banana management and castration, silage making and others

Chapter three entails the importance of attachment that is skills gained during industrial training, responsibilities, how the training influence my future career plans; how the training relates to class room work.

Chapter four contains conclusion and recommendations to kasajja stock and the university.

During this training I encountered some challenges like inadequate tools and equipment for carrying out activities, bad weather, moving long distance for outreach to Farmers and water scarcity but I managed to complete my training successfully.

Above all I recommend kasajja stock farm to at least buy More tools and equipment s and also adopt the use of borehole water as a supplement other than depending on only underground water which only operates when electricity is on.

CHAPTER ONE

1.1.0 INTRODUCTION

The industrial training carried out at Kasajja stock farm from 28th, Feb, 2022 to 6th, May, 2022 where we carried out a number of activities at the farm and which includes the following – orientation, making work plan, cleaning milking parlor, dipping animals, pasture establishment, parasite control, orchard management, pruning, castration, dehorning, fishing sampling, drug identification, fish farming, pasture identification, hay making and apiculture. Internship is a course unit run by the universities for most of the programs. This is intended to equip students with field skills.

1.1.1 Location of the farm

Kasajja stock farm is located in Nakaloke sub county, Kolonyi zone 1 in Mbale city. It is 8km north of Mbale town boarding 3 districts of Pallisa in western direction and Bukedea in north direction

1.1.2 Mission of the farm

To produce high quality milk

1.1.3 VISION OF THE FARM

A world in which people are empowered to succeed in the global economy

1.1.4 OBJECTIVES OF THE FARM

- To produce high quality milk for home consumption and commercial purposes.
- To create employment to local people around.
- To become a model farm in Uganda.

1.1.5 BACKGROUND

Kasajja stock farm was established early 1970 with poultry farming and local zebu animals occupying 50 acres of land.

Then in 1982 five (5) exotic breeds of animals (freshens) and one (1) bull was introduced from Kenya. Now the farm has 115 animals
