DEDICATION

With great honor, I would like to dedicate this report to the Head of department Agri-business of Busitema university Arapai campus, my family members and all animal protectionists in their various capacities.

May you all use it for future reference and read it to improve on the animal sector in our country Uganda.

ACKNOWLEDGEMENT

Acknowledge is always of great values, I therefore would like to appreciate the following personalities for making my education a success up to this level.

I glorify all this to the God Almighty for protecting me amidst all challenges that had endangered my life and our family.

Credit goes to Mr. Denis Okello, Mr. Sam Lokut, Miss. Sylvia Acam, Head of Department Agri-Business and my lecturers of the Animal Department Busitema University Arapai campus and Dr. Leonard Omandang my academic supervisor, the project manager Mr. Michael Koluo and Mr. Emmanuel Obukui the project Animal Husbandry officer.

ABSTRACT

Industrial training is one of the course units carried out in Busitema University. It is done outside class and it's all about interaction between the farmers and extension workers. I did my internship in 10 weeks, from 20th May-26th July (Two months and two weeks). The in brief of the activities during internship is as follows. Chapter one of the report describes the organizations' location which is plot 15E Lia street Boma North, historical background and organization structure. In chapter two, activities such as orientation treated the animals, dewormed, vaccination, gave prophylactic treatment cattle, goats and sheep, monitoring of valley tanks, training farmers on herd health management and attended training workshops were done. Chapter three of the report elaborates on the skills and qualifications gained like preparing and making presentations during workshops, take responsibility of the equipment used in the field in terms of repairing and also converting classroom knowledge into field knowledge. However, in chapter four as in conclusion, the internship went on well full of new experience in karamoja despite of challenges met and recommendations made were for the organization to construct crushes near watering points and carry out tick control and massive treatment schedule, and advise farmers to carry out prompt and regular deworming

CHAPTER ONE: INTRODUCTION

1.0 Introduction

I carried out my internship from Welthungerhilfe- Moroto office starting from 20th May to 26th July- 2019. This covered 10 weeks of training under Strengthening Resilience for Agro-Pastoralists Livelihoods in East Africa (SRAPLEA) project in Welthungerhilfe- Moroto

1.1 Location

Welthungerhilfe Office is located in Moroto Municipality, plot 15E Lia Street Boma Northern division.

1.2 Background of the organization

Deutsche Welthungerhilfe founded in 1962 is one of the biggest non-governmental aid and development agency in Germany. Deutsche Welthungerhilfe campaigns against worldwide hunger and promotes sustainable food and nutrition security by promoting site appropriate farming, establishing access to clean water, sanitation and hygiene, improving health care and education for people living in rural areas, improve their livelihoods and strengthen their social cohesion through social and economic integration of the Agro-pastoralists.

With funding from the German Federal Ministry for Economic Cooperation and Development (BMZ), Deutsche Welthungerhilfe Moroto is implementing the Strengthening Resilience of Agro-pastoralists livelihoods in Eastern Africa. (SRAPLEA) Program among farmers in Moroto district in two sub-counties of Rupa and Katikekile

1.3 Project goal

To improve the well-being and food and nutrition security of Agro-pastoralist communities with diverging interest in arid and semi-arid areas of Uganda, Ethiopia and Kenya.

1.4 Development objective of the project

The development objective the project is to strengthen the livelihood and reduce vulnerability of pastoralist and agro-pastoral communities in karamoja

The objective will be achieved through; -

- Strengthening the pastoralist production system.
