## DEDICATION

I dedicate this report to the entire KACHEP family, Dr Mukisa Ayub (manager), Mr. Sagal Joshua Mark (Ass manager) and Mr. Kalende Daniel for availing me with the opportunity to do my industrial training from their organization, the workers for their tireless effort towards the development of KACHAEP.

To my father Lokwang Charles, mother Nakiru Betty and my siblings Largo, Dorothy, Natasha, Peninah, and Analrellah for their support and guidance right from academics till my industrial training love you all

To my friends Nancy, Nsekanabo, twongeirwe, and many others thanks for always being there for me mostly in times of need, the entire victorious group for their tireless discussions throughout the semesters

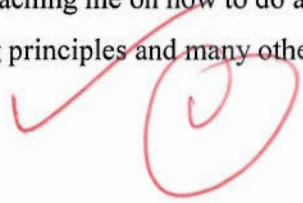

To the BUAC family mostly my lecturers for the knowledge and understanding which contributes so much to my capacity and career building.

### **ACKNOWLEDGEMENT**

I LOKWANG ESTHER to the best of my knowledge do acknowledge Karamoja Christian Ethno veterinary Programme staff Dr. Jean Nakaala, Dr. Carina Gruber, Dr. Ayub, the donors and all willing bodies involved in the development of the organization.

Mr.kalende Dan for his expertism in teaching me on how to do animal physical diagnosis, examining approaches, disease treating principles and many others.

A red handwritten mark, possibly a signature or initials, consisting of a large, stylized 'S' or 'E' shape with a circular flourish at the end.

## ABSTRACT

Karamoja Christian Ethno veterinary Program is a christian Non-Governmental Organization operating in Nabilatuk, Moroto and Lolachat sub counties curently. It is composed of board of trustees, secretariats, field workers and communities. It strives to encourage and see the agro-pastoral people of Karamoja utilize the abundant local herbs and their wealth of indigenous knowledge for sustainable humanity. This organization undertakes lot of activities that include Animal health, poultry projects, Agro forestry, evangelism, HIV/AIDS Home based care and business development skills. The Organization intends to see that the indigenous knowledge of the Karamojong Agro Pastoralists of using local herbs is adversely used in order to promote improved health of the animals and re-establishment of the natives into a sustainable Agro pastoral communities. During my attachment period I was involved in a lot of activities that involved both Animal health, extension activities, office work, and community sensitization. However, in my efforts to fulfill animal health activities, I found out that the major diseases that were affecting these animals were Tick Borne Diseases like East Coast Fever, Anaplasmosis, Heart water, and to a smaller extent Babesiosis. But mature animals seemed to be a little resistant to some of these diseases compared to the young ones which had a high mortality rate. These diseases could be possible to control only if the local herbs are used to completely eliminate tick multiplication other than the use of commercial pharmaceuticals and the introduction of grazing systems in the area.

## **1.0 CHAPTER ONE: INTRODUCTION**

### **1.1 KACHEP background**

Karamoja Christian Ethno Veterinary Program(KACHEP) is an NGO which was established in 1998 as Christian Veterinary Mission(CVM) before it was changed to KACHEP. The transition of CVM to KACHEP was in the year 2003. KACHEP was officially registered as an NGO in 2014. The purpose of KACHEP is striving to see the people of Karamoja utilize the abundant local herbs and their indigenous knowledge to re-establish themselves into sustainable Agro-pastoral society.

### **1.2 Mission statement**

The program strives to see Agro-pastoral people of Karamoja utilize their abundant resources of local herbs and wealth of indigenous knowledge to re-establish themselves into sustainable Agro pastoral communities.

### **1.3 Vision statement**

Communities committed to Christ, respecting one another and God's creation while utilizing their indigenous knowledge to meet their basic needs.

### **1.4 Core values**

- ✓ Partnership
- ✓ Integrity
- ✓ Commitment
- ✓ Stewardship
- ✓ Advocacy
- ✓ Mutual respect and trust

### **1.5 Objectives**

- ✓ To promote and strengthen Ethno veterinary practices
- ✓ To share the word God with communities
- ✓ To reduce poverty through improved health of livestock and their owners.
