DEDICATION

I dedicate this report work to the almighty God for the support he gave me during the time of conducting industrial training. Secondly, I dedicate it to my academic supervisor and my field supervisor Mr. Okulo Daniel, and to all the university lecturers for the great advice they gave especially Mr. Hamira Yunuz not forgetting all the staff of Namalu sub county. Lastly, my high dedication goes to my parent Loit Paul Lobunei and Lokubal Elizabeth for supporting me financially and all my friends who has been with me throughout my industrial training, giving me all kind of support and advice for the success of my education.

A handwritten signature in black ink, appearing to be 'Seo', with a horizontal line underneath it.

ACKNOWLEDGEMENT

The great acknowledgement goes to my almighty God for the abundant health given to me making me complete industrial training successfully. A great thank goes to my field supervisor Mr. okulo Daniel for mentoring me in a right way and academic supervisor for the great supervision given to me and not forgetting all the university lecturers who trained me actively in the class and in the farm during farm practice. I also acknowledge my parents not forgetting relatives and friends who supported me during the time of industrial training.

ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Namalu sub county, Nakapiripirit District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the CBFs and later I implemented the activities together with my field supervisor such as; castration of bulls, bucks for fattening and animal traction for farmers, Training of farmers group on animal traction, Training of farmers on animal production and management, animal treatment, vaccination of dogs and cats in all the parishes giving extension advice to farmers on production. These activities has made me to gain a lot of skills and knowledge like; Deworming of goats and cattle, skills in Castration, skills in general management of animals, communication skills and confidence in training farmers on animal and crop management, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must improve for the training programs to solve problems of poor turn up during such activities, government should also increase the number of motorcycles to solve transport problems and more equipment and veterinary drugs to be installed so that animals are treated and vaccinated in time.

1.0 CHAPTER ONE.

1.1 Introduction.

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at Namalu sub county, Nakapiripirit District Local Government during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

- ❖ Make students gain skills and knowledge from the fields attached
- ❖ Make students apply classroom knowledge in the field.
- ❖ Build confident in the students in contact with farmers communities and administrators

1.3 Background of Namalu Sub County

1.3.1 Location and area

Namalu Sub County Local Government is located in the west of Nakapiripirit district with a total land area of 1,373 sq. km. It is bordered by Loregae sub county in the north, Lemusuí Sub county in the East and Kawach in the South, lokatapan parish in the west, and has four parishes which are; loperot, Kaiku, kokuwuam, and lokatapan with 33 villages. The Sub county headquarters is located in upland village near Lobulepeded hciíi along Mbale, Nabilatuk-Moroto road and it is about 35km from the district headquarters.

1.3.2 Political and administrative infrastructure

The Sub County is under the political leadership of the Lc3 who heads the governing council and the Executives. The Council is the sole decision-making body for the Sub county and its decisions are implemented by the Technical Planning Committee staff from various disciplines headed by the Sub County Chief. There are 2 Sectorial committees of the Sub county council each headed by a secretary (executive) namely: Production, Works and Technical Services Committee and Finance, Planning, Administration and Community Services Committee
