DEDICATION

With gratitude I whole heartedly dedicate this report to my beloved parents Akwanet Robert, Ikilia Jesca and Apolot Monica who have been the pillars to my academic stand through advice and financial support as far as this written field work report is concerned, not forgetting my field supervisor Ms. Acom Esther Ruth, animal husbandry officer Kocheke Sub County who managed to make it to the field every day to enable me collect the right findings and knowledge by his guidance

91

ACKNOWLEDGEMENT

I thank the Almighty God who gave me health, energy and wisdom which enabled me to carry out my field work with less difficulties and problems, I also thank my dear guardians for the financial support offered and my field supervisor with the technical staff for the guidance mostly in the practical aspect

Finally, I respectfully convey my sincere appreciation to my academic supervisor, Busitema University Arapai campus and my attachment field supervisor, Kocheke S/county, Bukedea District for their guidance towards my academic career and field experience respectively.

ABSTRACT

This industrial training report is prepared on the basis of my two and half-month practical experience at Kocheke Sub County, Bukedea District in Eastern Uganda.

This report is mainly incorporated with my experience and practical scenarios obtained especially in capacity building of farmers, research and development works in Livestock Production and management and other cross cutting issues like information exchange through use of ICT.

The report consists of four chapters. In the first unit of the report, it provides information about the hosting institution. It starts from the brief history of the institution and continues to listing of the projects the company has undertaken from the time it has been established. Also in this unit, it contains, the mission, visions and objectives of the institution.

In second unit of the report it describes mainly about the internship experience. It starts by describing the sections I had been working on and continues to tell the different types of tasks that I had accomplished.

In third unit of the report it describes assessment of the internship and the overall benefits that I have gained from this internship experience. It further divides the overall benefits into details and tries to explain them.

After knowing the scenarios of Kocheke S/county, in terms of their employee satisfaction a lot of recommendations came up. Finally the report also consist recommendations and conclusion according to my point of view, which I think would improve the environment of the organization if implemented.

CHAPTER ONE: INTRODUCTION

4/5

Kocheke Sub County was started in 2017 which a government is owned institution under local government management. It covers a large area of the Eastern part of Bukedea district. Currently the sub county has institutions, Bukedea Technical Institute, Kocheke health Center II, and Bukedea Mama external radio station.

It also covers total area of 219.36km² and is bordered in the: North: Bukedea Town C, East: Bukedea sub-county, South: Kidongole s/c, West: Koena

The sub county is comprised of 10 parishes which some of them include; Kocheke, Aloet, Omonyono, Gagama, Atiriri, kamago, Kateki, Nyanoi, Kachage and Kokolotum with total of 23 villages

Kocheke sub-county is tailored towards achieving effective improvement in the quality of the life of Kocheke through effective service delivery in the areas of education, production, health, water and sanitation and community empowerment
