ABSTRACT

This industrial training report is prepared on the basis of my two and half-month practical experience at Bukedea Town Council, Bukedea District in Eastern Uganda.

This report is mainly incorporated with my experience and practical scenarios obtained especially in capacity building of farmers, research and development works in Livestock Production and management and other cross cutting issues like information exchange through use of ICT

In second unit of the report it describes mainly about the internship experience. It starts by describing the sections I had been working on and continues to tell the different types of tasks that I had accomplished.

In third unit of the report it describes assessment of the internship and the overall benefits that I have gained from this internship experience. It further divides the overall benefits into details and tries to explain them.

After knowing the scenarios of Bukedea Town Council, in terms of their employee satisfaction a lot of recommendations came up. Finally the report also consist recommendations and conclusion according to my point of view, which I think would improve the environment of the organization if implemented.

CHAPTER ONE: INTRODUCTION

Bukedea Town Council was started in 2007 which a government is owned institution under local government management. It covers a large area of the Eastern part of Bukedea district. Currently the sub county has institutions, Bukedea Technical Institute, Bukedea health Centre IV, and Bukedea Mama external radio station.

It also covers total area of 499.36km² and is bordered in the: North: Kumi district, East: Kabarwa sub-county. South: Kidongole s/c, West: Bukedea sub county

The Town council is comprised of 06 wards which some of them include; Tamula Ward, Kachabule ward, Oswapai ward, Okunguro Parents, Emokori ward, and many others

Bukedea Town council is tailored towards achieving effective improvement in the quality of the life of Bukedea through effective service delivery in the areas of education, production, health, water and sanitation and community empowerment

1.2 Vision

A transformed society that is literate, healthy and socio-economically by year 2024.

1.3 Mission.

To sustainably deliver holistic and integrated services while working hand in hand with all stakeholders in order to foster equitable, social, economic development.
