DEDICATION

I dedicate this work to the almighty God for the care, protection and support he gave me during the time of my industrial training. Secondly, I also dedicate this to my field supervisor Dr. OKELLO PETER and my academic supervisor Mr. MUSOBA ANDREW, and to all the Busitema University lecturers Arapai campus like Dr. OKWANY PATRICK, DR. AMONYA COLLIS and Mr. ALUTIA. For the mentor they have given me and not forgetting the staff of lira city west division. Lastly I also extend my dedication to my father Mr. OBONG GEORGE, SOPHIA OLOBO my mother , JIMMY OYET my brother, JACQUILINE ADONGO and IMMACULET OYET for supporting me financially and all my friends who tries their best to support me during my industrial training.

ACKNOWLEDGMENT

During the course of the study /training, I received assistance from many people and this work should not have been accomplished without parental guidance from many people therefor, I would like to extend my sincere thanks to the following people.

My special thank goes to Dr. Okello Peter my field supervisor and Mr. Musoba Andrew my academic supervisor for much of the time they spared to guide me during the training, may almighty God reward them for the motherly heart they have shown to me. I wise also to extend my sincere thanks to my father Mr. Obong George and my mother Sophia Olobo not forgetting Dr. Okwang Patrick farm manager BUAC and Mr. Oguli Francis my lecturer for the skills and knowledge they gave me during handling of farmers in the field.

I also thank management of Busitema University Arapai Campus for working tirelessly in training me. I'm very grateful for the support my lecturers gave me for example Mr. Oguli Francis, Mr. Zirutunda, Dr. Amonya collis, Dr. Okwany Patrick may almighty God bless you all.

All my friends that I have working with, thanks for their cooperation and discipline shown congratulations!

I would like to acknowledge my effort to lovely daughter Adongo Jenevi with all my prayers, may God bless you amen.

ABSTRACT

The field attachment was at Lira City West in the department of production and marketing (animal section) was meant to enable me gain hands on experience on the wide range of skills I learnt theoretically. More so, it was in a partial fulfillment for the requirement for the award of Diploma in Animal Production and Management at Busitema University Arapai Campus.

In the training process the field supervisor would guide me on how to carry out antimortum and post mortem inspection on the animal to be slaughtered. Most of the time the intern students perform tasks through consultation and observation of the chain of command in the unit. The field supervisor also delegate task of inspecting and condemning the animal with infestation of disease or part of the animal affected with worm, disease or poison and then passing it out for human consumption.

The process of internship training made me to acquire more skills and experience and they include skills of restraining animals, formulation of feeds, treating and deworming of animals, spraying, communication skills, leadership skills and report writing skills.

However the training was a success, some challenges were also faced such as not willing to complete dosage by some farmers, reporting the sickness of animals late when they are in critical conditions and also illegal slaughtering of animals or slaughtering of dead animals. In order to overcome the above challenges LCC should sanitize farmers on how to manage their livestock for better production and also providing drug carrier with drug in it to intern students to be used in the field.

CHAPTER ONE: INTRODUCTION

1.0 Introduction

This chapter talks about the origin of Lira City Council, the location, Mission and Vision statements, aims and goals, type of the institution, services offered, financial position and management, organizational structure, organizational culture, employee characterization, ownership and governance profile, administrative and management flows, monitoring and evaluation system, institutional self-sustainability and outreach.

1.1 The Origin and Location of LCC

Lira City Council is located in Northern Uganda. The district holds an administrative area of 9,738 ha/97.38 sq.km. Lira City Population is projected (Midyear 2020) from the 2014 National Population and Housing Census (NPHC), is 474,200, of which 119,952(48%) are male and 129,948 (52%) are female and according to the LCC divisions, the population is as shown below;

Table 1: POPULATION OF LCC

Division	Male	Female	Pop 2020
West	61,008	66,092	127,100
East	58,944	63,856	122,800
Total	119,952	129,948	249,900

The City is geographically located at latitude 20° 17' north of the equator and longitude 32° 56' east of the principal Meridian. It covers a land area of 7,745 hectares.

Lira City got its name from a Lango clan called “Liira”. It started as a trading Centre in 1919 and became a township in 1933. In 1954, the Township became a Town Board which transitioned into Lira Town Council at independence in 1962. It was elevated to a Municipal status 1985 (LMC, 2015) and on the 7th August, 2020 it was given a city status

The City is governed by a Local Government organization that is Lira City Council.
