Chapter three; It states the skills, the knowledge acquired, challenges faced, responsibilities given, influence of the training to my future carrier, correlation of the training with the classroom knowledge.

Chapter four; Carries the conclusions and the recommendations for both the university and the organization.

Appendices; Shows the photos of the activities carried out during the training.

Work plan: Showing the activities to be carried out, dates, responsible persons, sections and the remarks.

CHAPTER ONE

1.0 Introduction

Industrial training refers to the work experience that is relevant to the academic and professional development of a student before graduation. It is usually compulsory module for all students at the end of first year.

It is a program which aims to provide supervised practical training with aspect in specified time frame. This training can be carried out either in government organization or in private section.

Industrial training had the following;

- Exposure to more knowledge and skills.
- Interaction with the farmers to know their needs.
- To get to know the great challenges facing the learning center.
- Exposure to working conditions.

1.1 Background

Co-operation and development, a non-profit organization, is the operational branch of the association Africa Mission, currently present in Uganda with two permanent establishments in Kampala and Moroto.

Founded in 1982 and recognized as a charitable trust with legal personality, it is a non-Government Organization (NGO) eligible for international development and volunteering, according to Law No 49/87 regulating Italian public aid for developing countries. Since 2004, co-operation and development is part of the Italian Federation of International voluntary service's Christian Organization.

Co-operation and development, is registered in Uganda as a nonprofit making Italian organization founded in Piacenza by the late **Father Vittorio Pastori** in 1982.
