## ABSTRACT

Internship started on Monday 28<sup>th</sup>, Feb, 2022 were we reported to the farm (IBO) mixed Farm located in Mbarara district in Western Uganda. The objectives of the training was to make us the students benefit from the skills and knowledge gained from the field and to make us the students gain confidence. During internship I was attached to both crop and animal departments at the farm. While at the Animal section I did castration of pigs for fattening, ear tagging, dehorning, spraying, milking, spraying and training farmers on animal management. In the crop department we prepared Nursery beds, plant disease diagnosis, citrus growing and management, banana growing and management, soil and water conservation.

These activities have enabled me gain a lot skills and knowledge like communication skills, confidence in communication. During I.T I faced challenges like inadequate vet drugs, language barrier between the farmer's and us the students.

In conclusion, all the activities were implemented and industrial training was carried out successfully and I was able to gain a lot inform of practical skills and knowledge in line with my career and relating also relating with people in the field. Much as the internship was successfully done. I recommend for the few challenges faced, managers be installing veterinary drugs so that the animals are treated in time.

## CHAPTER ONE

### 1.1 INTRODUCTION

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at IBO mixed farm in Mbarara district in Western Uganda during the duration of industrial training.

### 1.2 Background IBO mixed Farm

IBO mixed Farm started in 1998 with a small plantation .IBO mixed Farm is a private and family owned farm whereby:

I stands for Innocent the head

B stands for the wife and

O stands for Orrah their son.

The farm is a self-financed unit which trains farmers on practical skills and also grows and markets farm products like banana plant lets.The farm now has 125 acres of land, 150 cross dairy cattle, goats, sheep and a large banana plantation, orchad, apiary .

### 1.3 Location

IBO mixed farm is located in Rwanyamahembe cell, Kanyerere Parish, Bwizibwera town council in Mbarara.

### 1.4 Vision

To be the leading farm in provision of Agricultural hands on technical skills in Uganda.

### 1.5 Mission

To skill farmers on the best optimum production and resource allocation.

### 1.6 Objectives of training

- To strengthen students ability, courage and being trustworthy to work with the entire community
