ABSTRACT

Agriculture and business is the main activity supporting the livelihoods for most of the graduation approach participants as supported by WEHH organization in Karamoja. In order to reduce food insecurity among vulnerable rural populations, Welt hunger hilfe aims at the following: Strengthen important institutions and stakeholders at micro, meso, and macro (sub catchment) levels. Pilot protection and conservation measures as per Lokere CMP, Increase water access and sanitation facilities for underserved communities, improve livelihoods and living conditions of the most vulnerable developing and disseminating of appropriate agricultural technologies in Karamoja region and Teso regions for sustainable livelihood and human development. I reported to the office on 28th /02/2022 at exactly 8:00Am and the industrial training was from 28th /02/2022 to 06/05/2022. Throughout the industrial training period, activities carried out were, permaculture training, nursery bed management, marking and swales, making bio-pesticides, distribution of Livestock, cereal banking and retail shop item basing on the purpose of this industrial training which was to equip us with knowledge and skills, methodology of monitoring the beneficiaries in most of the activities hence enabling us to carry out our task successfully.

CHAPTER ONE

INTRODUCTION

This academic document is field attachment report carried out at Welthungerhilfe-Lokere Water Catchment Project located in Moroto district whose activities are majorly on agriculture having a number of the employees and other departments i.e. administrative with sub sectors finance, procurement, animal health animal traction, aquaculture and apiary this has scientist, crop with sub sectors agronomy and soil improvement with scientists. This is a reputable organization and regulations on interns is based on the public service act, services offered are research and extension services to the community and educational institutes.

BACKGROUND OF WELTHUNGERHILFE (WHH).

1.0 Introduction

Welthungerhilfe (WHH) is one of the largest private aid organization German with no politics or religious affiliations. It was founded in 1962 under the umbrella of the UN food and agriculture organization (FAO). Since its inception, welthungerhilfe has implemented overseas projects in over 41 countries. In Uganda, welthungerhilfe started in 1986 making financial contributions and supporting the building of capacities of the local partners. Currently, the Uganda country program has approximately over 130 staffs. The main and coordinating office is located in Kampala, and field offices in Moroto, Katakwi, Arua, Yumbe, and Fort portal. Welthungerhilfe Uganda programs are implemented in Karamoja region in the district of Moroto, Napak, Amudat, Nakapiripirit; West Nile in the districts of Yumbe and Arua, Teso districts of Katakwi and Amuria; central in the districts of Kampala, Mukono, and Wakiso, Western region in the districts of Kabarole and Kasese

With financial support from the German Federal Ministry for Cooperation and Development (BMZ), WHH is implementing a three-year project titled Protection and Conservation of Lokere Catchment to improve Living Conditions in Karamoja/Uganda in Moroto District and in the Sub-Countries of Rupa, Katikekile and Tapac and Moroto Municipality with local partners in Uganda. The project aims to improve the livelihoods of the agro-pastoralist populations of Karamoja
