BAB YEAR ONE (1)

**SUBMITTED TO DEPARTMENT OF AGRI BUSINESS BUSITEMA
UNIVERSITY ARAPAI CAMPUS IN THE PARTIAL FULFILLMENT OF THE
REQUIREMENTS FOR THE AWARD OF A BACHELORS DEGREE IN
AGRIBUSINESSS MANAGEMENT**

SUBMITTED ON 30th / 08 / 2019

DECLARATION

I Oonyu Paul do declare that this report is out of my own work and is written after a practical experience and involvement in various activities in pursuing a Bachelors' degree in Agribusiness Management. During my internship training I was supervised by veterinary office staff and Busitema University Arapai campus staff.

Therefore to the best of my knowledge, this report has not been submitted by anybody to any Agricultural institution as a partial fulfillment for the award of any Bachelor's degree in Agribusiness Management.

ABSTRACT

Industrial training is part of the syllabus at the university and every student must do as part of the course. Below are the objectives of industrial training which include: It exposes students to the outside world of work, It enables student to get more experiences from the field, It helps student to convert their theory work in to practical's. Upon completion of industrial training a report is written. This report is divided into four chapters. Chapter one; this gives background, Objectives, places of attachment and Chapter two market survey, Ear tagging and vaccination of livestock to mention but a few. Chapter three: describes the impact of the attachment. It is in this chapter that the skills and qualifications and responsibilities under taken are described. It describes how the attachment influenced my future carrier plans and its correlation to classroom knowledge. And lastly chapter four is the conclusions and recommendations. The conclusions were made basing on how the activities were carried and different observations. My conclusions were drawn basing on the body in chapter two and later recommendations made from conclusions. The recommendations made are directed to organization and some to the Agribusiness and Extension department of the University as well

CHAPTER ONE

1.0 Introduction

I carried out my internship from Soroti production and marketing office starting from 20TH May to 26TH July- 2019. This covered 10 weeks of training. The district production and marketing office is under local government and also deals with the aspect of Agriculture, animal industry and fisheries. The activities carried out were done according to the work plan designed by the field supervisor on the first day of reporting. The work plan was designed in 3 areas i.e.; office work, abattoir and field.

1.1 Location

Soroti District production and marketing department is located in Soroti Municipality, Eastern region (U), opposite Soroti Sports Ground, along Ekanya Rd

1.2 Historical background

The growth of Soroti dates as far back as 1904 when the district commissioner of Mbale sent Kakungulu to open up some administration unites in Serere, Gweri and Soroti areas.

Part of Kakungulu's team camped near the rock at Soroti and settled there. The choice of this site was as a camping site and was probably influenced by the availability of good drinking water from the near by streams and the fact that the rock had some advantage on the matter of dams for settlers from the local inhabitants around under the organized and rule of Kakungulu.

Local inhabitants were forced to clear the forests and within a few days, a large area had been cleared and considerable amount of settlement had taken place. Thatched houses for administrative purposes of Soroti County were put stands and dispensaries in temporally materials stood at the site of Soroti hospital.

Later on with the coming of the Asian traders, small shops in the semi-permanent materials were put up in Soroti. The traders brought in clothes, salt, beads, shoes, were traded with exchange for skins, beans, chicken and groundnuts (batter trade).

In 1912 Soroti attained the status of permanent headquarters of Teso region as a result of recommendation by Sir Fredrick Jackson after the appointment as the new governor of Uganda.
