ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during the industrial training, conclusion of the report and recommendations derived from the challenges faced at Riwo sub county, Bukwo District Local Government. The objective of this industrial training is to make students benefit from the skills and knowledge gained from the fields, apply the knowledge they get from the classroom in the field as hands on and build confidence in the students. During internship I was attached to the department of animal production. This was followed by orientation where I was first introduced to the field supervisor and later I implemented the activities such as; castration of bulls for fattening and animal traction under NUSAF THREE Programme Training of farmers group on animal traction and Training of farmers on goat production and management, animal treatment, vaccination of dogs and cats in all the parishes. These activities have made me to gain a lot of skills and knowledge like; Retained placenta treatment in goats and cattle, skills in Castration, skills in general examination of animals against diseases, communication skills and confidence in training farmers on animal management, During internship, I also face some challenges like; poor mobilization of the farmer, lack of veterinary drugs and equipment at the Sub County, limited transport means for field work in the production department and poor turn up of the farmers to the training. In conclusion all the activities were implemented and industrial training was carried out successfully. I was able to gain a lot from it. I was in position of getting practical skills and knowledge in line with my career and relating with people in the field. The technical advice that I provided addressed farmers' problem and needs. Much as all were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that proper mobilization of farmers must be improved for the training programs to solve problems of poor turn up during such activities. Bukwo District local government should also increase the number of Assistant Animal husbandry officers and motorcycles to improve on transmission of animal extension service delivery to the farmers and solve transport problems and more equipment as well as veterinary drugs to be installed so that animals are treated and vaccinated in time.

1.0 CHAPTER ONE.

1.1 Introduction.

This report describes the activities implemented, skills and knowledge gained, challenges faced during the internship, conclusion of the report and recommendations derived from the challenges faced at Riwo sub county, Bukwo District Local Government during the time of industrial training.

1.2 Objectives of the industrial training.

The objective of the internship is to;

- ❖ Make students benefit from the skills of fieldwork that is hands on.
- ❖ Make students apply classroom knowledge in the field.
- ❖ Build students confidence and career capacity

1.3 Background of Riwo Sub County

1.3.1 Location and area

Riwo Sub County, is located in the North east of Bukwo District with a total land area of 1,373 sq. km. It is bordered by Kenya in the extreme east, Amudat District in the north, Iwongon Sub county in the west and Brim Sub county in the south west and Bukwo town council south east, It surrounded by Riwo Council in the eastern part and has three parishes which are; Riwo, Aralam and Chepsoiyek parish with 26 villages. The Sub county headquarters is located in Kapkutunyo village, Riwo parish That borders with Riwo town council along Bukwo soo road and it is about 3km from the district headquarters.

1.3.2 Political and administrative infrastructure

The Sub County is under the political leadership of the Lc3 who heads the governing council and the Executives. The Council is the sole decision making body for the Sub county and its decisions are implemented by the Technical Planning Committee staff from various disciplines headed by the Sub County Chief. There are 2 Sectorial committees of the Sub county council each headed by a secretary (executive) namely; Production, Works and Technical Services Committee and Finance, Planning, Administration and Community Services Committee

1.4 Beneficiaries of Riwo sub county

The beneficiaries are the CBF, PWD, HIV/AIDS group, Adult and Youth groups.
