ABSTRACT:

My training was conducted at Kapir Sub County under local government Ngora district for the period of ten weeks which was aimed at equipping me the student with more practical and professional skills so as to fulfill their objectives and goals as per the sub county vision of the financial year.

At Kapir Sub County there are mainly shoats, cattle and poultry and I was to be engaged in all these field activities when we were called upon.

I carried out different activities both field and office .For field activities in the cattle section they include breed identification, health inspection, spraying, animal traction, and treatment e t c. For shoats, activities included; ear tagging breed identification, health inspection ,census and treatment as detailed in Chapter 2. Office activities included; STPC meetings COUNCIL meetings e t c

The attachment equipped me with number of skills important in animal production and also social life since I was able to interact with different farmers. These include; Skill of diagnosing and treating different common livestock diseases basing on their clinical signs, how identification can be carried out in both cattle and goats, how to control both internal and external parasites in livestock as per Chapter 3.

I also held the following responsibilities during the training, Census and health inspection in both cattle, goats and poultry section during market days, spraying of animals to control external parasite during demos.

My objectives for I T were TO FIND OUT WAYS OF CARRYING OUT BETTER DISEASE SURVEILANCE.

I conclude by saying that my I T was successful though a lot of field calamities were encountered .I also encourage the University to increase time for I T to at least 12 weeks so as to achieve quality assurance amongst the students.

CHAPTER ONE:

1.0 INTRODUCTION.

Industrial training is that time offered to students by the University and so much supported by the Government of Uganda. During this period of time, a student is attached to a farm, district or Agricultural related organizations. He or she is expected to put all theory learnt into practices under the supervision of the field supervisor.

My field of attachment was Kapir Sub County.

Kapir Sub County is one of the sub counties in Ngora district. It's located in the northern part of Ngora District. To the North, it's bordered by Gweri Sub County in Soroti, to the NE is Kapujan Sub County in Katakwi district, to the East is Mukura Sub County in Ngora district and the West Kyere sub county in Serere district.

It has a total land area of 186.4km² out of which 57.84 km² is covered by wetlands.

The sub county comprise of 16 parishes i.e. Kapir ,Koloni ,Omiito ,Agule ,Ajesa ,Akarukei ,Atapar ,Akism ,Ajeelo ,KOKONG ,Oluwa ,Agirigiroi ,Ajuket ,Orsai and Abatai.

Of the 16 parishes, 12 of them lie along the wetland system the main economic activities in the sub county are livestock rearing, agriculture and artisan fishing.

VISION;

Health, empowered and Wealthy Community of Kapir Sub County.

MISSION;

To Foster Development Through Empowerment Of Community On Participatory And Gender Responsive Manner.
