**Dedication**

I dedicate this first to the almighty God for enabling me to start it well and finally now to the end of this training, I thank my father Azandu Patrick for the tireless financial support, knowledge, skills and substantial advices rendered to me during the IT work. Not forgetting my beloved Adraa staffs that entirely spent all their efforts supporting me through mindfulness and practical skills I got learnt.

### **Acknowledgment**

In a special way I would like to thank the Almighty God who has protected me during the attachment and also for ensuring that am successful. I up loud my family members especially my father Azandu Patrick for all the endless generous contribution he provided for me during the success of my IT.

The management of Adraa Agriculture College and the entire staff body, especially the education and training department, Monitoring and Evaluation department Offaka Development Program and the section heads for the technical skills and guidance they gave me during the IT.

---

Lastly, I would like to give my sincere thanks to the management of Busitema University Arapai Campus and the entire staff for the strong foundation of learning that has made this attachment a possibility for my success.

**Abstract**

This field attachment took a duration of 10 weeks starting from 28<sup>th</sup> feb-10<sup>th</sup> may, 2022 at Adraa Agriculture College in the department of programs to enhance promoting sustainable agriculture practices and skills. I went through a lot of trainings in the different sections ranging from BDC, Livestock, Field crops, tree and nursery, demo plot, vegetable, ODP and Outreach program. The objective of this industrial training was to expose me to practice hands-on skills acquired from classroom theoretically. This report contains the different enterprises in AAC and the different trainings I went through and obtained skills in self-empowerment, knowledge on how to interact with farmers, follow ups, meetings and getting to help them help themselves in outreach programs. Some of the skills include: tail docking, teeth clipping, grafting, budding, organic pesticides, hive inspection, honey, wax, and propolis processing, IMO, castration, feed formulation, assignments given to me to teach and assess students both practices and teaching the piggery unit among others.

## CHAPTER ONE

### 1.0 Introduction

Chapter one consists of the organization name ,geographical location, how the organization positions itself in the industries, size(number of employees), It also gives information on the department the intern worked and elaborates the individual roles the intern did and the types and levels of skills that were required for the given skill, when the task was done, for whom and finally the organization structure.

### 1.1 The background of the college.

Adraa agriculture college AAC was found in 2012. The purpose of the college is to educate and train people from rural communities in Uganda, South Sudan, and north east democratic republic of Congo. The main aim of this education and training is to improve capacities and capabilities so that rural people could have access to available natural resources to achieve sustainable livelihood for themselves and communities.

The college is registered as an agriculture training institution by the ministry of education and sports, Registration Number: MOES/BTVET/219. The official name of the institute is Franciscan Brothers Adraa Agriculture College (AAC). This registration will give it an official status as training institution of the corporate entity above and all legal obligations will still be vested with the trustees.

Currently AAC legal identity is the registered trustees of the Franciscan brothers (Br) (Africa region) Nebbi Uganda this entity is registered as a cooperate body under the trustees' incorporation act of Uganda by the ministry of lands, water and environment. All legal obligations are therefore currently vested in the trustees.

### 1.2 Vision

~~Vision of the college is a society where the marginalized are prioritized and the earth is cared for.~~

### 1.3 Mission

Mission of AAC is to empower the marginalized in their struggles to liberate themselves and to care for the earth.

### 1.4 Major objective of aac

The main objectives of AAC are to promote holistic development of students to enable them to use available resources for sustainable livelihoods and to live in harmony with creation and God.
