Table 1 shows the identification of different equipment, tools and there uses

Table 2 shows work plan of activities during the assessment

Table 3 shows the photos of activities during the attachment .

A red handwritten signature or initials, possibly 'A', enclosed in a red circle.

ABSTRACT

Industrial training is an assessment activity carried out by internship students and guided by the responsible field supervisors and academic supervisor during internship program.

The purpose of industrial training is to make students benefit from skills and knowledge gained from the field , apply the knowledge they get from the class room in the field and build confidence in the students. During the internship, I was attached to the department of crop and animal were I was able to gain skills and knowledge on both sections.

We were grouped into different groups were I was attached to DCP group A were I learnt different activities such as pruning of tomatoes , spraying , dehorning , disbudding ,disease diagnosis in goats , field marking , treatment of pigs ,feeding of dairy cattle etc.

I was attached to Mr Muhindo Williams and other field supervisors who guided as on different farm activities during attachment program.

During internship program, I also faced some of the challenges such as, harsh climate conditions, inadequate equipment for carrying out activities .etc .

Despite the fact that they were some challenges faced, I would like to conclude that the attachment activities were successfully done and I was able to gain a lot of skills and knowledge in line with my future carrier plan .

I would like to recommend that ,the university farm should provide enough equipments for smooth running of the attachment activities in the farm

1.0 CHAPTER ONE: INTRODUCTION

1.1 INTRODUCTION

This report describes the activities implemented, skills and knowledge gained, challenges faced at Busitema University Arapai campus farm during the attachment program.

The BUAC farm operates mainly crop and animal sections, and carry out several activities in different sections such as piggy, small ruminants, horticulture poultry and cattle.

1.2 BACKGROUND

Busitema University is a public University established by statutory instrument No.22, 2007 enacted by the parliament of Uganda on 10 may 2007 with a web site of [www . Busitema .ac .ug](http://www.Busitema.ac.ug)

The university is a multi campus model with seven campuses namely ; Arapai , Busitema, Nagongera , palisa and Namasagali .

Busitema University Arapai campus is a faculty of Agriculture and animal sciences located at the former Arapai agricultural collage which was built by the colonialists Sir Andrew Cohen in 1956

Recently in 2009 it was upgraded to as an independent public University known as BUAC which offers academic programs such as CGA , DCP, DAP and bachelor's degree programs such as APM , BAB and BSA .

The faculty is located 10km along Soroti -Moroto road

1.3. VISION

To be a centre of academic and professional excellence in science, technology and innovation.

1.4. MISSION

To provide high standard training, engage in quality research and outreach for socio economic transformation and sustainable development
