DECLARATION

I ILUKAL PATRICIA hereby declare that I have undertaken ten weeks industrial training at dynamic agro-pastoral development organization during a period from 28th-Feb-2022 to 3rd-May-2022 in partial fulfillment of requirements for the award of diploma in crop production and management. Based on my own work carried out during the course of my study under the supervision of the project officer Mrs. AUMA GWENDOLYN.

I assert the statements made and conclusions drawn are an outcome of my Industrial training. I further certify that the work has not been submitted to any other institution for any other diploma, degree, in this university or any other.

ACCESS NO.: FAA 2206

DEDICATION

I dedicate this industrial training report to God almighty, my strong pillar, my source of inspiration, wisdom, knowledge and understanding. He has been the source of my strength throughout this programme and on his wings only have I soared. I also dedicate this work to my significant other who has encouraged me all the way and whose encouragement has made sure that I give it all it takes to finish that which I have started. And to my fellow interns Thank you, my love for you all can never be quantified God bless you.

ACKNOWLEDGEMENTS

My deepest gratitude goes to God who has provided all that was needed to complete this project and the program for which I enrolled. There was never lack or want throughout this entire study

I appreciate the organization for obeying the leading of God and nurturing its vision

My appreciation also goes to my supervisor that has been of tremendous help to me through this industrial training Program

My utmost regards goes to my parents who laid the foundation of my education giving it all its best. I am forever grateful to my Spouse Mr. Lochan Francis who has done everything possible and even given up other important things to make sure that I achieve this. I can't find words that express my gratitude. May God bless you

01

CERTIFICATION

This is to certify that I ILUKAL PATRICIA with Reg no BU/UG/2019/3515. Carried out this Industrial training from (DADO) under the supervision of the project officer and that this industrial training report has not been previously submitted for the award of any diploma in this or any other university.

CHAPTER ONE: INTRODUCTION

1.1 Introduction

The report describes activities implemented, skills and knowledge acquired and challenges faced at the time when the industrial training commenced to its last stage. It also comprises of the conclusions and recommendations drawn from the entire process of the industrial training

1.1.1 Objectives of industrial training

- The main objective of the industrial training is to experience and understand real life situations in industrial organizations' and their related environments and accelerating the learning process of how students knowledge could be used in a realistic way.
- It also provides the exposure to practice and apply the acquired knowledge hands on in the working environment.
- The purpose of industrial training is to enable teachers, instructors or lecturers assess formally educational attainments, intelligence, personality and character of their learners developed during the training period.
- It also facilitates integration of knowledge and skills acquired from school.

ABSTRACT

This report presents the experience and skills gained during my ten weeks of industrial training undertaken at dynamic agro-pastoral development organization along kidepo road, Kaabong district. My training was in both fields of agriculture, animal, health and peace activities.

During the period, I gained practical knowledge and skills in the various fields of my training for example carrying outreaches on farm activities in the sub counties of Lolelia and kalapata, management of demonstration gardens around the organizational premises, and the activities carried were planting, watering, mulching, weeding, pruning in this demo gardens, inspection on the progress of kitchen gardens along the river banks of Kaabong district, meat inspection at Kaabong abattoir, tracking of the chili farmer activities in the three sub counties of Sidok, Loyoro and Lolelia under the integrated community agriculture and nutrition programme under the (ICAN projects) and also, times were spent in the field to get hands on experience in using one of the monitoring and evaluation tool called an open data kit to capture information, promoting healthy wash practices for example good hygiene as a result of using clean water. Participating in the peace dialogue meetings in communities by disseminating the importance and how peace can be restored in Karamoja sub region

This report discusses the skills gained and experience gathered during the period of training, justifying the relevance of the scheme in equipping students with needed technical competence to thrive in the real world
