DEDICATION

I dedicate this report to my Parents MR. MUGYENYI NATHAN and MRS. JANE MUGYENYI who support me financially and materialistically to meet my studies requirement to run smoothly and my sisters and brothers who devote their time to council me in different aspects, my lecturers of all modules and lastly my gratitude goes to the administrators of Busitema University Arapai Campus mostly the Agribusiness department for having given me the opportunity to get some training from the field and all staffs of ACCE FARM for their devoted time to me in the time of need.

①

ACKNOWLEDGEMENT

I express deepest thanks and gratitude to the sovereign Lord God for enabling me persevere and successfully complete my industrial training with great pleasure.

9

I thank the staff of ACCE for their patience, motivation, cooperation, teamwork and immense knowledge and also for having accepted me to carry out my industrial training at the farm. Their guidance helped me in all the time of my training. Their continuous guidance and insights made my industrial training a success.

Lastly, I am grateful to my parents for the financial support they render to me and their patience, my friends, sisters and brothers for your support during the industrial training and writing of this report.

ABSTRACT

This report consists of four chapters and it will clearly give full details of activities and lectures I was involved in at ACCE farm. These include banana plantation management, horticulture crops, Animal management, Hydroponics, Aquaculture and many others.

Chapter one: Gives the introduction of ACCE which includes location background, vision, mission funding, services offered and objectives of the study, chapter two In this chapter, I describe in details the activities I got involved in for the programs that I have mentioned. In horticulture and crop production, I dealt with lettuce, eggplants, tomatoes, sukumawiki, beetroot and banana management. It also gives full details on different sections like Hydroponics, poultry, cattle and aquaculture. Chapter three summarizes the skills gained from the different programs, responsibilities undertaken, the influence of the attachment to my future career correction of attachment activities with classroom knowledge and challenges faced during my internship. Chapter four contains conclusion and recommendations, Appendices, work plan and references.

5

CHAPTER ONE;

1.0 INTRODUCTION.

Industrial training is one of the study requirements carried out by every higher institution like universities and college for qualification of an award of certificates, diplomas or degrees which is aimed at boosting on the studies, practical skills and knowledge and also exposing the students to working conditions in areas of their study. BUAC sends her students to different Agricultural related farms in different districts all over Uganda to carry out their IT.

1.1 LOCATION OF ACCE FARM.

ACCE farm is located in Wakiso district, Kawuku along Entebbe road 4.5 km Bwerenga, Nabukera close P.O.Box 5856 kampala/Uganda

1.2.BACKGROUND

Acce farm started in 2005 by DR.Emma Naluyima in Mukuuba where she managed to utilize her father's land and started with 3 sows and 1 boer and later it was shifted in 2010 to Bwerenga where she managed to attain some acres of land and she planned her farm on one acre that it contains piggery unit, poultry (chicken, turkey, Guinean fowl), Maize for silage, banana plantation, Aquaculture, hydroponics, Vermiculture, Maggotculture, waste management (Biogas). The farm supplies its products to the neighboring schools and all over the country. It is also a model farm where different farmers from all over the world are trained from. It neighbors former radio Uganda, on a hill near the shores of Lake Victoria the farm is nicknamed as the 'one acre unlimited' because it is strategically planned on one acre of land.

1.3. FARM VISION

Centre of excellence through modeling farmers all over the world.

1.4 FARM MISSION

To generate, develop and model farmers while conserving the environment and waste management through extension service.

1.5. FARM OBJECTIVES

- To enable farmers gain hands on skills and experience.
- To develop farmers understanding of work ethics, responsibilities and opportunities.
- To educate farmers on how to manage agricultural waste to useful outputs.
- To enable farmers achieve from little seeds to big dreams.
