Chapter four; This contains conclusion, observation, recommendation and finally this report also contains the appendices which contains the organization structure, work plan and photos and also contain the reference.

6

CHAPTER ONE

1.0 General back ground of Nakabango farm

1.1 Introduction

This report presents the industrial weekly report for the duration of 20th may – 26th July 2019 carried out at Jinja local district farm Nakabango and this include the activities, different challenges, lessons and skills attained in different sessions of the training. The industrial training help me to know the work place ethics and application of theory into practical.

1.2 Location

This farm is located in Nakabango village, Namulesa parish in Jinja district. It is 18 km north of Jinja town along Kamuli road. The farm is located in south eastern region in east Africa with the most fertile soils in Uganda.

1.3 Historical back ground of Nakabango farm.

According to history this farm started in 1948 as a variety of trial center under [NARO]. It was established to carry out the trail for the crops in eastern region. Crops like coffee which covers 2 ½ acres, beans sweet potatoes, palm oil all carried out on 50 acres of land together with the farm infrastructure under decentralized policy, The farm was passed over to the district in 1995 however the district and NARO carried out their trail on the farm were structure like horticultural, coffee nurseries horticultural units which cutting were raised and managed

The district established program like demonstrations based on practical like fruit production, maize, growing banana established in 1950.

1.4 Management activities carried out on the farm.

Below are the activities that were carried out during the time of industrial training

Orientation

Potting of banana

pruning of banana
