EXECUTIVE SUMMARY.

The executive summary consists of the statement of the most work carried out in the field of attachment that is finance department of Namutumba Town Council. This is mainly paper work of cash inflow and cash outflow in the organization and maintenance of books of accounts. Such work includes.

- Preparing financial statements for example income and expenditure statement (statement of financial performance), cash flow statements, and statement of financial position at the end of every financial year.
- Preparing the bank reconciliation statement for all transactions carried out at the end of every month.
- Generating and filing of payment vouchers and fund transfer request forms by getting signatories from people concerned to sign.
- o Filing, stamping and storing the source documents.
- o Registration of local service tax for the Town Council.
- Enumeration, assessment, collection, and distribution of revenue to town council departments.

CHAPTER ONE

1.0 INTRODUCTION

This chapter focuses on background of the organization, mission, vision, organization goals, aim, objectives and the structure of the Namutumba town council.

1.1 Back ground of the Field Attachment

Internship exercise is an initiative at Busitema University undertaken by students in the University under the Faculty of Management Sciences. This internship program is majorly undertaken by students after their second year of study at degree level. The internship is taken as an academic practical program by the university which is examinable and is part of the university curriculum, and a pre-requisite for the award of a degree. At the end of second year of study, students are tasked to go to different organizations and carry out internship exercise in line with the respective program and specialization.

I was admitted at Namutumba Town Council in the department of finance and accounting under the HOF, ISABIRYE YAKUTI. I started with normal orientation and practical work. In the field I was able to get to know the operation of different staff members of finance in relations to different departments and at large interacting with my fellow interns. The field attachment enabled me to compare theories acquired in lectures with practical application of theories. I involved myself in making some payments to the local council Chairmen both one and two and filed some district documents like the local service tax registration for the District headquarters.

1.2 Objectives for field Attachment

- i. To enable internee to compare theories acquired during lectures with practical application while in the field of attachment.
- ii. To enable internee get access to some of the books and equipment used in the field, that is to say cash books, vote books, computers, expenditure abstracts.
- **iii.** To help the internee to find out the problems faced by employees while at their places of work, problems faced by organizations during the operation and knowing their future prospects.
